55 To Graduate

On Tuesday, June 6, at 8:00 p. m., the Eighth Grade of Sunset School will have its graduation. There are 55 graduates in all.

The first thing on the program is the processional with the orchestra providing the music. Then the Girls Glee Club will sing a group of two songs, "Songs My Mother Taught Me" by Dvorak and "Who Is Sylvia?" by Schubert. Next after the Girls Glee Club the class speakers will be heard.

Donald Staniford's topic is "Our Days at Sunset". Doris Evans will review "The Transition Period". Vincent Torras will discuss the "Carmel Junior High School". Margery Street will tell about plans for the "Carmel High School". Then the Girl's Glee Club will sing two more numbers, "Wandering", by Schubert, and "May Song", which is a Netherlands air.

Mr. Bardarson will then present the graduation class to Mrs. Watson, who will present the diplomas to the graduates. Following the presentation of the diplomas will come the Recessional.

After the graduation exercises a reception will be held in the library for the parents and friends of the graduates. The evening will close with a dance for the graduates in the lunch room.

GRADUATION PARTY

On Tuesday, June 6, there will be a party for the graduates in the lunch room, no one but the graduates may go.

Some of the Eighth Grade Mothers are going to decorate the lunch room for the party and there is going to be a fine orchestra at the party. Bob Farley and his Campus Cats will be there. There'll be refreshments too, and dancing until 12:00 o'clock.

Listed are the chairmen of the different committees for the graduation party: Decoration, Mrs. Bell; dancing, Mrs. Burrows; refreshments, Mrs. Pelton; recreation, Mrs. Street; bouquets, Mrs. Lang.

—PAT TARRANT, 8th Grade.

Student Body Honors With Election These Outstanding Pupils at Sunset

When the committee for the study of a new constitution for the Carmel junior high school student body was appointed, one of the first things agreed upon was that we wanted our new constitution to be as satisfactory as was the old one, under which Sunset school has functioned so long. During the last two years under the leadership of Howard Levinson, Sean Flavin, Avelline Quinn, and Bill Christensen, our elementary school student body is to carry on this tradition of successful self-government,

we shall find it necessary to find a boy or girl to act as president who can measure up to the standard already set.

When our new constitution was finally drafted, a nominating committee was named, whose duty it was to choose the names of some of the outstanding pupils in Sunset school to run for the various offices. After several meetings this committee decided upon the following candidates, and their names were presented to the student body:

President: Margery Street, Lila Whitaker, Doris Evans; vice-president, Jimmy Handley, Irving Williams, Sandy Buhrans; secretary-treasurer, Peggy Gargiulo, Pat Tarrant; business manager, Kenneth Jones, Jim Reichert.

On last Friday the student body heard the report of the nominating committee and accepted it.

The next step was the election, which was held on Monday. Balloting took place in the lunch room.

(Continued on page 16)

"Vacation"

Ann Pierce, 6th Grade

WEEK'S VILLAGE NEWS IN BRIEF; FIRE IS THREAT

The pen is mightier than the sword; and the writings of Sunset's talented children pushed the journalistic of the regular Pine Cone staff almost out of the paper this week. Sunset children took over editor's chair under Miss Anna Marie Baer, art instructor at Sunset, and did the grand job which we see in this issue.

Now, however, we must relate a few of the week's events: Most spectacular and, in its threat, most omin-

ous of the week's happenings was a fire on Pescadero Road, north of Carmel, near the homes of Alice Y. Nugent and J. H. Benson, both of whom were absent at the time. They had praise and gratitude for the volunteer work of Carmel young men who joined in the fire fighting with bravery and energy.

The air was still during the blaze which burned several acres of dry timber, but the prevalent Northwester of this season of the year, had it been blowing, might have driven the flames into Carmel with possibly grave results.

Over last week-end Carmel suffered from a "crime wave", minimized by Commissioner of Police Frederick R. Bechdolt, who pointed

out that thefts, prowling, and car robbing have been common for many months but have not achieved much publicity.

Mrs. Charles A. Brand was the greatest loser when burglars took \$300 worth of jewelry from her home and some cash. I. A. Bourriague of Santa Cruz lost a \$100 gold watch and \$20 in cash from his car, and Robert L. Eschen of San Francisco had \$20 taken from his car at the beach.

Today's election of a Sunset school trustee is an important one with Mrs. Helen Levinson the candidate. Peter Ferrante withdrew his nomination, BUT those who made it their business to support him, without his thanks, are trying to elect him willy-nilly. Every vote is needed today at the Sunset polling place, open from 9 a. m. to 7 p. m.

Death of William Schuldt, 49, native of Barth, Germany, occurred on Monday night. He had lived in this area for the past ten years and has been ill for some time. He leaves his wife, Eileen of Carmel, his mother, two brothers and a sister in Germany. Another brother lives in the East. Carmel Masonic Lodge conducted the funeral on Wednesday. Cremation followed.

A discriminating audience enjoyed the piano of David Marrs, who was presented by the Musical Art Club at the Peninsula Country Club last Saturday evening. A bright future

Teachers, Too, Benefit By Vacation From Sunset

The teachers of Sunset School must have a vacation, just as we must. They want to get away from us and we want to get away from them. We are happy to know some of them want to improve their education for the new Junior High School. Of course ours is going to be quite different.

Mrs. Hope Raggett is planning to go to San Francisco with her husband to live, as she is going to stop teaching.

Mrs. Lilly Trowbridge is going to spend her summer at Summer School. Miss Elett McQuilkin is planning to go south with a friend. If not, she is going to stay in Carmel.

Mrs. Edna Lockwood is going to Chicago for a visit with her family.

Mrs. Bernita Ninneman doesn't know what she is going to do. Any suggestion will be welcome.

Miss Alice Graham is going to the University of California, and Mrs. Frances Farley is going to summer school in Berkeley.

Miss Florence Morrow's plans to date are to spend the summer in the high Sierras.

Miss Grace Knowles is going to attend choral school in Los Angeles, under Christiansen, outstanding choral conductor of the United States. She will also go to San Jose State College for the summer session.

Mr. Clifford Squier will attend the University of California. Mr. Arthur

was foreseen by critics who attended this young peninsula musician's concert. Herbert Heron assisted on the program with readings from Tennyson's "Idylls of the King" upon which MacDowell's "Eroica" is based. The entire program was warmly received.

New shelves to accommodate some 3500 books at the Library have now been installed. Miss Elizabeth Niles, librarian, states that the books are being so arranged in the new shelves in the Memorial Room as to be easily found. Non-fiction, including travel, history and biography, are placed on these shelves. About 3000 books are still stored in the basement and another 1000 could be borrowed from the county library.

Hull will go to Stanford after spending a week or two in Nevada. Mrs. Frances Johnson will also go to Stanford for the summer session.

Mr. Clayton Schuttish is going to spend one or two weeks at General Grant National Park, then take a trip to the Fair, and later attend summer school at San Jose State College.

Noreen Kelsey and Barbara Bolin, 7th.

Information On Courses Announced for Junior-Hi

In the basic program outlined, a course has been set up which should meet the needs of all students, by increasing the understandings necessary for effective living in the world today, by providing them with continued instruction in fundamental skills, and by preparing them for successful work in the upper schools, according to announcement at Sunset school.

Electives are allowed students in all years of the junior high school. The opportunity to explore many fields of interest is one of the most valuable features of education at this stage of the child's development, and counseling teachers should advise the selection of as many different electives as possible during the student's years in junior high school, without regard to the course to be taken in senior high school.

The basic course prepares students for all courses in the senior high school, and satisfies all requirements for California colleges and universities, with one exception: Pupils who expect to enter the California Institute of Technology or the engineering schools of any university should elect algebra in the ninth year. Pupils who expect to enter any college outside the state should write for a bulletin, so that any special entrance requirements which affect the ninth-year studies may be met. The office will write for college bulletins on request.

All programs of study are to be approved by the counseling teacher to whom the student is assigned. Counselors should give students as much freedom as possible in choosing electives. Suggested programs for the ninth year have been outlined for the use of the counseling teachers to provide specific guidance where it is desired, but these programs are

in no way pre-requisites to senior high school work in the same field.

Appointment may be made with Principal O. W. Bardarson or Mrs. Helen Cowan Wood, secretary, during the summer months for clarification or advice in planning student programs.

The following advice on planning a curriculum will be helpful:

"You will want your junior high school work to do several things for you: to teach you what you need to know about yourself and the world you live in; to prepare you with the knowledge and skills which you must have to go on with your studies in senior high school and college; and to allow you to explore many fields so that you can find out what kinds of work are interesting to you and will help you make the most of your particular abilities.

"The basic course, which you will find outlined in this article, will help you develop skills in study, language, reading, numbers, and the use of your body. It will give you valuable information about the people of the world and their activities, as well as the scientific laws which govern our living. This basic course prepares you for all senior high school work.

In each year you are allowed to choose, in addition to the studies of the basic course, from a number of electives. It will be very valuable to you to try out many kinds of work. There are no restrictions as to the courses you select, except that ninth-year students are to choose one daily elective in an academic subject, such as foreign language or mathematics; and one elective from the other non-academic subjects.

"Two periods a week will be given to clubs. This will give you another opportunity to take part in activities which interest you if you are not able to include them in your regular course. The list of clubs will be announced each semester after we have found out what activities you would like to undertake."

Basic Course

Healthful living, 5 periods per week each year; social life and culture, 10; modern life science, 2 in 7th and 8th, 5 in 9th year; mathematics, 3 in 7th and 8th, elective in 9th; music, 2 in 7th year, elective in 8th and 9th; library and reading skills, 3 in 7th year; home room guidance, 3 periods each year; clubs, 2 periods each year; electives, 5 in 7th, 10 in 8th and 9th

years. Total periods per week, 35 each year.

Electives

Seventh year—art, practical arts, homemaking.

Eighth year—art, practical arts, cooking, music, dramatics, journalism and creative writing.

Ninth year—Latin, French, algebra, general math, art, music, practical arts, homemaking.

Description of Courses

Healthful Living—Team games, social games, and sports of many kinds will be included in this daily period, as well as the development of skills in the use of the body. All activities will be chosen for their suitability to the stage of physical development reached by students of this age. Proper attention will be given to recreations which may become permanent interests such as badminton, tennis, swimming, archery and dancing.

Social Life and Culture—This course will be based on a study of the people of the United States and other countries, their backgrounds, their problems, and the cultures which they have developed. It will include the work traditionally taught in an English course: the effective use of language for oral and written reports, the grammatical basis of English, use of books and the library, and literature. A double period daily is included in the basic course for each year.

Modern Life Science—A general introductory study of things and the natural forces which control them is a part of the basic course for all students. The object of this course is to give students a survey of the world of science, and an understanding of their physical environment.

Mathematics—The required course in mathematics for the seventh and eighth years includes practice in the skills essential to a successful economic life, and an understanding of the elements of banking, investment, budgets, simple accounts, and other common activities of the average person in daily living.

Two courses are offered as electives to ninth-year students: General Mathematics and Junior Business in a combined course, and algebra. Students who expect to enter an engineering college should elect algebra, but all others are advised to defer this course to the tenth year.

Library and Reading Skills—Three periods a week are required of seventh-year students. Particular help will be given to those who show a reading deficiency.

Music—A short daily lesson in music, totaling two full periods a week, is included in the basic course for the seventh year. During the next two years, music is elective.

Special groups will be organized in A Cappella and Orchestra.

Home Room Guidance—Every student in the Junior High School will be assigned to a counselor, who will advise him in the selection of his courses, and in any problems of adjustment to the school. A regular period is set aside for meeting with the counseling teacher. This period is used for conducting student affairs, for general discussion of school problems and undertakings, for committee meetings, and Student Body meetings.

Art—The course in art includes instruction in drawing and painting, in a variety of media. Guidance is also given in design and creative composition.

Practical Arts—Pottery, woodwork, metal work, and other crafts are offered in the practical arts course.

Home Making—This course will include projects in sewing, cooking, handwork, entertaining, purchasing for the home, and other phases of home making.

Dramatics—Workshop production of plays will be carried on in the class, with the designing and construction of stage sets and costumes, experience in lighting, and selection of music, as well as the interpretation of roles and the study of famous plays. There will be emphasis on the development of a pleasing voice.

Journalism and Creative Writing—Production of a school paper will be the center for activities in this class, with general study of effective writing for newspapers and magazines. Students will also do creative writing of many types, exploring their own

abilities and developing appreciations.

Foreign Languages—Latin, French and Spanish are offered as electives in the ninth year. There will probably be a language club if there is student interest.

5 Close-in Lots \$2,100

This group of lots offers an exceptional opportunity for someone who wants to build a number of renting houses. Fine trees and nice Ocean view. For a short time only at this price.

THE PINE CONE adds its congratulations, with those of other business firms, to the Sunset School graduating class of 1939, on the successful completion of its first eight years of school work. One hurdle has been passed in the life-long process of education.

Congratulations, too, to the entire student body of Sunset school, as wide-awake, lively and intelligent a group of youngsters as you can find in a day's march, as is proved by this issue of THE PINE CONE, entirely written, with few exceptions, edited and illustrated by the boys and girls. And congratulations to Carmel, which has a school to be proud of, a principal to be proud of, and a teaching staff second to none. *Long may you live and prosper, Sunset School!*

Whales and Sea Otters Pursued by Adventurous Sailors on this Coast.....by Captain R. E. O'Neil

Because the little cove on the north side of Point Lobos was once used as a landing place for whalers and the knoll above a lookout from which passing whales were spotted as they progressed up and down the coast; because the children and children's children of those whalers still live here today...

Because sea otters were discovered again last year on this part of the coast, at Bixby Landing where Mrs. Frieda Sharpe has her observation gallery, after being believed extinct for years by scientists who would not credit repeated reports of sea otters down the coast...

Because the fur seal is known to migrate past this coast, although far out to sea, on its annual north-south pilgrimage...

Because the lore of the Pacific Coast is of great interest to those of California who are too ready to forget or are newcomers who never have learned our lore...

We reprint the account by Capt. R. E. O'Neil, published recently in the San Francisco News Letter and Wasp, as follows:

THE FINE ART OF WHALING

The whaling industry along the northern Pacific Coast began when

whales off the coast of Greenland became scarce. British and American whaling expeditions to the Bering Sea, Point Barrow in the Arctic, and along the Alaskan Coast began as early as 1800.

The captain and the crew worked on a percentage basis of the catch, and at the height of the industry a large proportion of those who shipped on whalers were Portuguese and Cape Verde Negroes, ready and eager for the simple reason that they would do almost anything as a means of getting out of their country. This gave rise to the term "checkerboard" crew—made up of blacks and whites.

Whaling vessels usually had four small boats in readiness, and when they reached northern waters they kept one man on watch in the crow's nest up in the rigging. As soon as this look-out sighted a whale spouting, he would sing out "There she blows!" and give directions where she was. Then the crew would make a rush to lower and man these small boats.

A whale is not only a big mammal, but also one of the biggest cowards, therefore the boats were pulled out gently, the oars dipped as noiselessly as possible and no one was allowed to talk.

The Capture

The boat steerer's duty was to shoot a harpoon into the whale. In the stem of the boat was a tub with about a half-mile of inch-line. Maybe the whale would take a notion to run, in which case, while the other boats stood ready with harpoons, the whole crew shifted to the back of the pursuit boat, which had a length of about 24 feet. While the whale seemed to be going a mile a minute the boat would draw close enough to shoot with a bomb loaded with dynamite or powder and aimed to break the mammal's backbone.

If the bomb hit the whale it would explode inside and the whale would die almost instantly. If it failed to hit and the objective started running, the crew had to shift to the back of the boat to keep it from going under. Occasionally the whale would be submerged and some have been known to go as far as 600 feet under, but they always bobbed up again.

As soon as the killing had been accomplished the prize was towed alongside the ship, the mainyards let out, a staging put over outside the boat to work on and three cables put around the whale, lashing it to the ship.

The Cutting

The carving up process began by cutting a hole next to the backbone to remove the blubber, which was often two to five feet thick. Then they removed the back part of the skin, and using cutting spades gradually turned the whale over as they worked, going thoroughly over the sides.

Hoisting the blubber cut in huge strips, with block and tackle, they dropped it on deck where big kettles were rigged up and a fire was all ready to render the oil. It took about a sack of coal to get the cooking well under way and from then on the fuel was entirely augmented with the scraps and cracklings, the ashes from same being strong enough to take the paint off the deck.

As fast as rendered, the oil was stored in big casks. From one whale there was secured an average of 200

barrels of oil, so it may easily be estimated that the value of a single capture ran into the thousands of dollars. The Right Whale is twice as large as the ordinary whale, spouts two streams of water 50 feet in the air, and has a valuable whalebone in its mouth. When one of these formed the prize capture it meant big money, the whalebone selling at eight dollars per pound. This whalebone was used to make bone cloth for furniture and is the type that "never wears out." Once in a great while they found ambergris (used for making perfume) in its stomach.

The tenderloin of the ordinary whale they could use for fresh meat. It weighed sometimes one or two tons. Cooked it tasted like beef, but it had a very strong odor, which could be detected a long distance and there was no way of killing the smell of it even with onions; however the forced use of it when fresh meat was lacking did render a great and necessary health service in keeping down the dread scurvy. During the last World War whale tenderloin was shipped into our markets, even into San Francisco, when meat was scarce. But being entirely too odorous, it was not a successful idea.

SEA OTTERS

The sea otter fur trade was a great industry throughout the 18th century and existed until 1898 when the American, Russian, Japanese and Mexican governments prohibited the killing because the otters were fast becoming extinct. That law still holds. It is the most valuable fur in the world, about \$1000 per skin, and unlawful to have in one's possession.

So today, the otters may bask in the sunshine, safe and snug. In large numbers they may be seen along the coast, and easily at least three different places by driving along the San Simeon highway south of Point Sur, where the road follows the edge of the cliff. They will probably be sunning themselves, lying on their backs with their eyes closed and their paws in the air, and it is interesting to train a glass on them for close observation.

The sea otter has a long narrow body, some of the males growing to be five feet long. They are generally coal black. One distinction they have is being the only animal in the world that lives in the ocean and yet is like a land animal. Their forepaws are very broad and their toes are webbed like a duck's to help them in swimming. They live entirely on fish. A hungry otter will sit on a rock watching the water, make one leap and come up with a big fish dinner in his claws, which are long and sharp. An otter can sleep with his head laid back on his hips, floating in the water.

There is a fresh water otter, which is like a different animal altogether. This type has a tail like a lizard and a face like a puppy, and is often called the dog-otter. An example of this type may at present be observed in the outdoor pool at the aquarium in Golden Gate Park.

Capturing an Otter

The real sea otters are as savage as tigers and their sharp claws, if given the chance, could tear a man to pieces. They stay in little coves along the shore and raise their kittens in nests among the rocks.

A schooner, out on a fur hunt in the days when the business was legal, first sighted the rookeries and then lowered small boats. As soon as the crew members were near they loaded rifles, or their Smith & Wesson repeating revolvers, with blank cartridges or prepared their long thin boxes loaded with firecrackers. Then, almost upon their prey, they commenced firing and the otters would dive like lightning into the water. Of course they would have to come up for air, dive again and repeat the process until exhausted. Then the hunters could come close enough to throw the nets, which they fastened to long poles, over the victim's heads,

tow them alongside the boat, hit them over the head with a club or a piece of iron, and drag the dead otters into the boats.

THE LOST WOMAN

The Russians, engaged among the earliest in the fur trade, took possession of San Nicholas Island, about 80 miles off Santa Barbara, and left a crew of Aleutian hunters to carry on the work. The newcomers had immediate trouble with the natives, killed every man on the Island and took possession of the women. When the Russian ship returned to take the crew away and found what had happened they left the women to their fate.

This circumstance so disturbed the padres at Santa Barbara that they called upon Capt. John Nidiver, who, in 1835, with two merchants, Isaac J. Sparks and Louis D. Burton, had built an otter-hunting schooner there. Capt. Nidiver was prevailed upon to go to the Island and bring these unfortunate Indian women to the mainland in his schooner which he had named "Peresnado", meaning in Spanish, "Worse Than Nothing."

They succeeded in getting all the women safely on board when one of the young mothers discovered that she had left her baby behind. She was instructed to go back after it, and did, but meanwhile a squall (the sea-kind) arose and the captain had to take up anchor and pull to sea. He landed his cargo safely on the mainland, but did not return for the woman and her baby for three years. When he did return he could find no sign of her and supposed that she had died or that some ship had picked her up. Eighteen years later he again visited the Island, found the woman alive and well and brought her to the mainland. She had never found her baby.

THE FUR SEAL

A large number of schooners, and even whalers, were sent north for the

profitable capture of the fur-bearing seals. The skins brought from 50 to 100 dollars apiece, and were very dark in color. The seal pups, on the contrary, were as white as snow for about 20 days, and then almost overnight turned black as tar. You simply cannot get a sailor to kill a cow or a pup for the latter are just like real babies and with their human ways, with little tears on their cheeks and nestling their heads on a sailor's shoulder, they make a regular softie out of him. But when they grow up...

The largest grows to be not over four feet and is not much of a fighter, having no claws, but a grown seal has a tremendous bite!

Most of the seals were captured in the Bering Sea area, where they congregated on the ice floes. Members of the ship's crew would slip along with clubs, get between the seals and the water, and knock their victims over the head.

The lean part of the meat of the fur seal is very tender, not at all bad eating, and looks like a piece of red salmon.

It is against the law to kill seals now, but they may be bought from the Indians who have been granted the sole right to capture any kind of game for good. Seal oil is good for burning and can be refined for cooking, as it is almost tasteless, therefore it is a helpful product for the Indians near Bering Sea.

Question-Answer Resume Of Junior High Problems

Ever since Carmel decided that the Eighth Grade pupils of Sunset School should stay at Sunset another year, many questions have arisen from parents, teachers and students. We thought that perhaps some of these same questions may have arisen in our readers' minds. So we thought it would be nice to list some of these questions and the answers to the questions.

Q. Will you have enough room to accommodate a junior high school?

A. Yes, adequate room. We are going to have one additional room

available.

Q. How many teachers will be on the junior high school staff?

A. Eleven.

Q. How many are new teachers?

A. Milton Lanyon will take Miss Baer's place as art teacher in the junior high school. Miss Adele Osborne will teach the languages. Mrs. Phyllis Walker will teach the general science and journalism classes. Mrs. Miriam Watson will teach physical education for the girls. Other members of the staff will include Mrs. Frances Cottle Johnson, Arthur C. Hull, Miss Grace Knowles, Clifford O. Squier, Ernest Calley, R. J. Gale, and Mrs. Helen Poulsen. Calley is returning to Sunset after a year's absence. He graduated with honors from San Jose State College.

Q. Will the program be complete enough so that children can go to other high schools or fit in senior high school when they have finished?

A. Yes. The program is very complete and meets all requirements. Dr. Douglas, chief of the division of secondary education in the State Department of Education, spent a full day in Carmel. The program met with his approval.

Q. Will typing be taught in junior high school?

A. Yes, for the ninth grade.

Q. What are some of the clubs offered?

A. Every child has an interest or

CHIEF SUNSET AND HIS CLAN

I

*Here, many, many moons gone by
Came a young Chief, with a mystic eye.
He built a village, good and strong,
To last his children seasons long.*

*His tribes then were small and few,
But through the years they grew and grew.
As the years passed he had a notion
So with his hand he made a motion.*

II

*Around the fire an old, old man,
Sits Big Chief Sunset and his Clan.
Another wigwam he will build,
And all his children will be thrilled.*

*So up the hill in another moon,
Will go some braves to the tepee room.
At the new wigwam, they'll dig and delve,
These many braves of ten to twelve.*

*There's Bardarson, the Medicine Man,
And the other warriors of the Clan,
To teach crafts and trades of tribesmen old,
And how to capture the white man's gold.*

—MARIE STEVER, 7th Grade.

(Linoleum Cut also by Marie Stever)

hobby. Whatever interests students most will be used as a basis for the clubs. Probably some of these interests will be music, drama, art, crafts, newspaper, science, aviation, etc.

Q. What is the feeling of children regarding the junior high school program?

A. The children will have a very important part. The student government and council will be organized by the pupils, and various functions of the school will be given over to them.

Q. Will there be any student social activities?

A. That will be worked out by the Student Body government.

—Pat Tarrant, 8th Grade.

Mr. and Mrs. Martin Mitau and their two children came down from Menlo Park to stay at La Playa and enjoy all-day fishing trips in the surrounding country.

was discussed with Mrs. Webster Street, retiring president, and Mrs. Arthur Strasburger, incoming president. A total of \$230 was gained through the Carnival this year.

It was decided to devote this fund to buying of glasses and for dentistry where eyes and teeth have been revealed in bad condition during recent thorough examination of school children, in order to have these children, who could not otherwise be aided, in the best of health for next term.

The association has just completed a highly successful year under Mrs. Street's chairmanship.

Leading women's organizations of the country are taking part in preparations for the new program series titled "Women in the World of Tomorrow." Each week will see prominent women leaders as guests on the program. This Saturday the program is presented under the auspices of the National Society of New England Women from Boston, and Miss Ada Louise Comstock, president of Radcliffe College, will be the guest. Although one hesitates to predict so early in the series, this promises to be one of the most outstanding educational programs for the coming summer season. Saturdays KSFO, KNX, 8:15 p. m.

Beginning June 5, "Tune-Pp Time" will change day and hour. The program is to be heard Mondays, 8 p. m.—KSFO. There will be no change in personnel on the program, which features Andres Kostelanetz' 45-

piece orchestra, Kay Thompson's rhythm singers, and Walter O'Keefe emcee.

THE PEOPLE'S PLATFORM, half-hour informal debate, moves to the West Coast this Sunday, June 4, for a series of four discussions on "What Is the American Way."

The speakers on the program, not yet selected, will gather in a private dining room with Prof. Lyman Bryson, moderator of the debates, and while they are debating a concealed microphone will be cut in without advance warning to them and listeners will hear the discussion. The program will be heard at the usual time and station, KSFO, KNX, 3 p. m.

Enacting one of his greatest film characterizations, "The Prisoner of Zenda", Ronald Colman comes before the Radio Theatre microphone for another outstanding dramatic effort. Monday—KSFO, 5 p. m.

We hope that you are not becoming annoyed by our frequent mention of Orson Welles' classic dramatic broadcasts. Risking one more comment, may we say that: On tonight's program, in addition to the fine acting of Mr. Welles, listeners will have the pleasure of hearing that great lady of the theater, Helen Hayes, as guest star in "Victoria Regina."—KNX, KSFO, 5 p. m.

The American radio version of POMP AND CIRCUMSTANCE will hit a new high in the heavy schedule of broadcasts planned for the visit of Britain's King and Queen to the ex-province U. S. A. (Please do not misunderstand that we wish to be complimentary to this visit or its personages. The occasion is significant, and one generally applauded in this country). HOWEVER—despite the careful planning of advance publicity agents, and social schedule mappers, radio listeners are becoming a bit weary when—assured that if they visit their loudspeakers at such and such a time, they will have the pleasure of hearing Britain's Monarch dedicate such and such a cornerstone, they dial the scheduled program and are greeted not by the King's voice but by the mellow tones of a studio organ. . . . A few minutes

later, the studio-tour guide (all staff announcers are at the reception) breaks into the music with the shaky announcement that "Due to conditions beyond our control, we are unable to bring you . . . etc." You know the rest. BUT—these unfortunate tie-ups can not be rightly placed on ANY doorstep. ICEBERGS only, deserve the menacing finger of scorn. But let us have just ONE more try. Swallow your dinners hurriedly next Wednesday night, sneak up on your loudspeakers at exactly 6:30 p. m., dial ANY station, and barring the sudden announcement of another undeclared war,—in the words of the prophet—"You Will Have Done." OYEZ! OYEZ! OYEZ!

Busy Summer Program for Art Institute

With daily classes continuing into the summer season, which is an unusually active time for the Carmel Art Institute, Kit Whitman this week announced her program with Armin Hansen, Paul Whitman, Burton Boundey, Kay the Potter and Elizabeth White on the list of instructors.

Armin Hansen's life class will continue every morning from 9 to 12 and during the summer months outdoor landscape will be featured.

Paul Whitman's watercolor class meets every Thursday afternoon at 1 at the studio and from there goes out for the afternoon.

Burton Boundey's outdoor sketch class also meets once a week, on Tuesday at 1 o'clock.

Ceramics will be taught by Kay the Potter in pottery, modeling as well as a finishing class for advanced students.

The children's class will be taught by Elizabeth White who will conduct outdoor sketching and drawing and composition indoors. Miss White has studied fresco painting with Gardner Hale in Paris and has worked with Roy Boynton of the University of California on mural projects. She was director of the art department at the Children's University, New York City, for four years and supervisor of the Federal Arts Project in Los Angeles since then.

All Saints Church

Next Sunday at All Saints' Church, the Holy Communion at 8 a. m.

Church school, 9:30 a. m.

Morning prayer at 11 a. m., with sermon message by the Rector, Rev. C. J. Hulswé. At this service the graduating classes of Sunset school will be in attendance and they will be the special consideration in all the arrangements. The full Vested Choir will sing Semper's "If Ye Love Me" and the general public is invited to attend this Annual Service for the graduates.

MEETING OF ALL SAINTS' ALTAR GUILD WEDNESDAY

The members of All Saints' Altar Guild met at the Rectory, last Wednesday, for their quarterly meeting. Mrs. J. W. Dickinson was the speaker. She gave a resumé of her impressions of the English Churches she had visited on her recent sojourn abroad. Mrs. F. Marsh, Mrs. W. Dekker and Mrs. H. Dormody were the hostesses at the tea served after the meeting and a record attendance testified to the drawing power of the speaker and the interest in the work of the Altar Guild.

MEASLES CONTINUES LEADER

Sixty new cases of measles were reported in the county last week after several weeks of about the same incidence of new cases. Other cases of communicable diseases were: Seven of chickenpox; syphilis, 6; mumps, 5; gonorrhea, 2; tuberculosis, 2; German measles and scarlet fever, one each.

Junior High Student Body Following Palo Alto Plan

When the executive council of the student body decided that we would need a new constitution of the student body of the junior high school, I was one of a committee of 15 members appointed from the sixth, seventh and eighth grades to send to other schools for copies of their constitutions so that we could study them before actually getting to work on drafting one of our own. We found the most satisfactory constitution to be that of the Palo Alto junior high school, and we decided to use it as a sort of a model. Our own Sunset School student body constitution was used as a framework on which to build the new one, for it has served us very satisfactorily for a number of years.

Our committee held nine meetings and discussed all the different things which we felt should be included in a good constitution. We spent some time deciding whether to adopt the council-manager type of organization, or to continue with the present type of organization being used in Sunset School, that being a student body whose executive officers consist of a president, vice-president, secretary-treasurer, and business manager. The committee finally agreed that the latter type was best suited to our needs in the immediate future.

When our new constitution was completed it was presented to the student body and was accepted temporarily. We want to try it out before finally adopting it, as no doubt, when we actually begin our student body activities under it, we shall find some changes necessary.

Our committee members were: Bill Christlerson, Avelline Quinn, Doris Evans, Sandy Buhrans, Baird Bardarson, Oliver Bassett, Jimmy Handley, David Davis.

—Sandy Buhrans, 7th Grade.

Christian Science

"The Lord reigneth, he is clothed with majesty; the Lord is clothed with strength, wherewith he hath girded himself: the world also is established, that it cannot be moved." These words from Psalms comprise the Golden Text to be used Sunday, June 4, in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

The subject of the Lesson-Sermon will be "God the Only Cause and Creator." Included among the Scriptural selections will be: "Bless the Lord, O my soul. O Lord my God, thou art very great; thou art clothed with honour and majesty. . . . Who laid the foundations of the earth, that it should not be removed for ever" (Ps. 104: 1, 5).

The following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, will also be included: "There is but one primal cause. Therefore there can be no effect from any other cause, and there can be no reality in aught which does not proceed from this great and only cause" (p. 207).

LITERARY EFFORTS—SOME STORIES.....by Sunset Pupils

OLIVER BASSETT TELLS US
HOW HE WRITES A STORY

For many months I have wanted to write a story, not just a short story, but one of many pages, that would be more like a novel than a short story. I wanted to put into it all the thoughts I had treasured in my mind, and imagined in my dreams, a story in which I could create a boy, and have him actually live on the pages of a book of my very own. I did not care whether anyone ever read it; I just wanted to get down on paper the things I had been dreaming about by night and thinking about by day.

I told no one but my mother about this, and she said it was a fine idea. I knew it was possible for me to do it, but just how should I start? Every book I read made me more and more impatient to begin. Finally, mother told me that I had spent time enough thinking, dreaming, and planning, and that the time to actually begin had come. Her first advice to me was not to copy, not to use anything from any book I had read, but to make my story as much my very own as I could.

My mind was made up. I would start! That very day my teacher announced to his class that we were going to write stories in class as part of our work in composition. It seemed as though everything was going to work out. I started writing. I wrote at home, after school and at night; I wrote at school, not only during the regular times, but at recess, after school, and when I had finished my other lessons, such as arithmetic. Once my characters almost got away from me, and it seemed to me they always wanted to talk instead of doing things, but I kept after them, and tried to get them to behave.

So after days of hard work, but work I loved, I had finished my story, and I must say I was pleased with it. Fifteen chapters, 42 pages, and hundreds of words. To another person, it might not seem such a great achievement, but to me it was the first step toward something which I hope may be a real part of my later life.

—Oliver Bassett, 6th Grade.

Useful Activities
In Club Program

Next year at the Junior High School some of our classes will be in the form of clubs. Among our clubs we hope to have are: Typing, photography, hobbies, home economics, art, music, personality, boys food, girls food, crafts, sewing, etc.

If you take art as your club for the first semester you can change to another club the second semester.

I am sure we will all get much pleasure out of these clubs. Club meetings will be held twice a week.

We are looking forward to the clubs as we are to the many other phases in the Junior High School.

—Phyllis Reese, 8th Grade.

An Invention:
Will It Work?

A great bubbling and steaming took place as I poured some fuming hydrochloric acid down the funnel of my hydrogen gas apparatus. Immediately, a gas shot up the glass tube into a bottle I had ready. I clamped the lid on the bottle and labeled it "Hydrogen Gas." Just then I got an idea. If I could get some very light metal like aluminum and heat it, and make it into very delicate bubbles, then shoot helium gas into them, when they cooled they would be lighter than air. But, oh shucks! I guess it wouldn't work!

—David Davis, 6th Grade.

An Autobiography
By Elinor Smith

Someone was born in King City on June 21, 1926, at 3:15 p. m.

Her mother's parents were Swedish; of her father's ancestry, I have no knowledge, since they lived in the United States for many generations.

The baby had a brother and a sister, both a few years older than she. At the time, this girl I have been talking about, is 12 years of age.

She entered kindergarten in Sunset School at the age of five, and now is in the Seventh Grade.

The subject she likes the best is writing compositions.

In her early life, at about the age of six, her greatest fun was going down a canyon near her home with her brother and sister, to build pine-needle houses in the trees. She will always remember this as one of her first adventures.

While in the fifth grade she joined the Girl Scouts.

She likes to garden, play solitaire, read, sew, play tennis and ride horseback.

She doesn't know what she will be when she grows up, but what ever it is I'm sure she wants it to be something worth while.

—Elinor Smith, 7th Grade.

Sixth Graders
Enjoy the Fair

About two months ago, as some of you may know, most of the children in the Sixth Grade went to the San Francisco Golden Gate Fair. We rode up in three cars and got to the Fair about noon. After we had eaten our lunch we all went different ways with our partners to see as much of the fair as we could until 5 o'clock. At about a quarter after 5 we ate dinner, then we went to the Gayway and stayed there about an hour. Then we went to see some of the different state exhibits. After going to some of the other buildings we started home. We were all probably tired out but very happy after seeing such a lovely Fair.

—Flora Lee Koepp, 6th Grade.

—Elinor Smith, 7th Grade.

Dance and Drama
On Club Roster

When we come back after summer we will be in our Junior High School. We will have the advantage of joining and organizing different clubs. There will probably be a language club, music club, journalism club, math club and dramatic clubs with as many others as we are interested in, and any pupil may join these clubs.

There will be dancing groups once or twice a month in the gymnasium or lunch room. In this way we will be having an education and social life together. We will learn to dance, speak properly and be conscious of our manners.

The Junior High School gives us all something to which we can look forward to.

—Yvonne Welsh, 8th Grade.

SOCIAL ACTIVITIES PROMINENT
IN JUNIOR HIGH SCHOOL PLANS

Our Junior High School will be made up of 7th, 8th and 9th grade students. We plan to have all of our school activities together. We hope to have monthly dances. Our social calendar will not only be filled with dances, but wienie roasts, bicycle rides, swimming parties, horseback

SUNSET

We had a wonderful time at Sunset School,
Where I was as smart as a mule.
They taught me everything I wanted to know,
Now I'm writing something for Sunset to show.

And soon we'll be leaving good old Sunset School,
Where we've worked night and day obeying the golden rule.
The work at the school wasn't hard,
Only running and chewing was barred.

We had lots of fun working all day;
But, say, we also had much fun at play.

The teachers were swell who tried to teach us;
While busses brought children who wanted to reach us.

We'll be seeing you next fall,
So give me a call,
And I'll have my diploma
A hanging on the wall.
—Harold Albright, 8th Grade.

THANKS TO SUNSET

Thanks to Sunset for our education,
Thanks to Sunset for a long vacation.

When we come back we'll have forgotten all we learned,
For another vacation we then will yearn.

But that'll be a long time from now,
In the meantime, we'll have fun anyhow.
—Frances Walters, 8th Grade.

STEELHEAD FISHING

Steelhead fishing is a very good sport,
Specially when you get 'em hooked up short.

They tug and they pull, but to no avail,
Even when you get 'em hooked by the tail.

Soon they tire, and then stop still,
Then you pull 'em in and grab 'em by the gills.

You take 'im on the sand, there you find he's dead;
Never again will he sleep, on the soft ocean bed.
Kenneth Jones, 8th Grade.

IT'S A LIE!

One day we goes fishin', John and I,
And I'm tellin' you, dis ain't no lie,
We gets some worms in the groud',
We dig, dig, dig, way, way, down.

We dig way down, all our might,
Pullin' out worms both left and right,
We get our pole and run down the river,
We goes so fast we make everyone shiver.

We chucks out our pin and line,
John yells out, "Oh boy, that's fine!"
We waits and we waits, then I ups and perks
As the fish gives the line a couple of jerks.

We pulls on the line, as we sweat and strain,
Our bodies all a achin' with pain,
The fish gets tired and we pulls it in,
Yes, sir, with our line and little bent pin.

We sits on a rock and starts to sigh,
John sez to me, "they'll think it's a lie,"
We chucks in our fish, picks up bait and pole,
And "gosh, ding, won't you believe what ah tole?"

—Gordy Miyamoto, 8th Grade.

riding and numerous other delightful affairs. We plan to do many interesting things in our Carmel Junior High School.

—Eileen R. McEldowney, 8th Grade.

THE GREAT LOSS; PIRATES
AND AN UNINHABITED ISLANDClass Day Play
On Movie Theme

Friday, May 27, Sunset School enjoyed a rather gala event. It was the annual Class Day Play, starring the entire graduating class.

In the past the graduating Eighth Grades have had fashion shows and radio programs, so this eighth grade, (bless 'em) decided to have a movie studio.

"A movie studio," you will say, "how can they have a movie studio?" Well, it seems that they had transformed the entire stage into a regular studio, cameras, flood lights, script girls, camera men, and directors, but best of all were the movie stars themselves, with such notables as "Tobert Railer", Greta "Gargle", "Broma" Shearer, Judy "Garlic", the "Wrong End Kids", "Cannabel", "Boney" Martin, Dorothy "De Tour", and many others.

Trouping on the stage every now and then were a group of star-struck tourists, who hounded the actors, actresses and directors, with autograph books and candid cameras, and also a group of hula-hula dancers.

At the end of the play, the class will was read, and the class song sung.

The script was written by a group of Eighth Grade students.

—Doris Evans, 8th Grade.

Our High School
Is Anticipated

In August, 1940, our Carmel High School will be finished. We will have swimming, football teams, track and everything necessary to provide us with a well-rounded education.

Our school will be one of the most modern in the state. It will have modern lighting and heating systems.

The people that are graduating into the ninth grade in June will remain at Sunset another year. When the year is up, we will go to the new high school and the Carmel pupils at Monterey High School will come over here for the rest of their high school education.

The school will be located at the top of the Carmel hill. There will be a subway built under the highway for the safety of the students.

—Dean Michels, 8th Grade.

The brig was bending under the force of a heavy wind when it happened. The captain, Tom Morgan, was giving out his orders when a cannon was heard. The crew of the brig had not noticed another brig, flying the skull and crossbones, coming alongside. She was a pirate ship, while Tom Morgan's was a peaceful merchantman en route between Mexico and Spain. She carried a small amount of gold but a lot of silver, for it was lighter than gold and could be put on a brig instead of a galleon. In this way it could be transported faster than on a galleon.

The shot from the cannon put a hole under the water line so the pirates would have to hurry to board her if they wanted the treasure. The brig was sinking fast. The pirates only had half of the silver out when the brig suddenly put her bow down and started to sink rapidly.

The pirate captain had long since put the crew of Tom Morgan and Tom adrift in the brig's long boat, with water and ship's biscuits. They had no oars but a rudder with which to steer with the tide. There were 14 in the crew and counting the captain and mate there were 16. For two days they were adrift and on the morning of the third day the man in the bow called out, "Land Ho!"

Land it was—a small island on which were all kinds of fruit. Suddenly we started backing up. It was time for the ebb tide. At night we started to go ahead again. As soon as we would near the island the tide would change and back we were pulled. This continued for six days, never touching land once, until on the seventh day we took to swimming when the boat came nearer than usual to shore. With a rope to the long boat, we made land and pulled in the boat after us.

We saw from the first that the island was uninhabited. Tom ordered a searching party to go out and see what they could find. When they returned they said they saw a spring not far off. They also reported that there was enough fruit to live on for a few days.

All of the fruit was never eaten, however, as on the second day, the look-out reported a passing sail. It was perhaps a Spanish vessel. We signaled and the ship turned toward shore. We finally drifted out to her in our long boat and returned to Spain on a treasure-laden ship—one which had escaped the pirates of the sea.

—John Phillips, 5th Grade.

THE LAST GALLEON; A TALE
OF THE COAST OF BARBARY

It was a stormy day on the Coast of Barbary. The Red Rose of Portney was one of a long train parading in honor of the king. As it happened it was the last of the fleet.

The crew consisted of the captain, Tom Canton, the mate, Bill Sovreis, and 11 men, none of which were too good. One of the crew drank some native beer, as it was good. He drank more and more until he was exceedingly intoxicated. In his drunken stupor he staggered down the ladder into the hold. Grabbing an axe he proceeded to chop holes in the bottom. Nearly dead from the effects of the beer, he raised a racket with the axe. The captain caught him in the act and shot the poor devil in the chest. Coughing convulsively he dropped to the floor dead.

The leaks enlarged and the hold was filled with water, keeping the men away from the leaks. The bow began to go under. Shrieks, yells and curses rent the air. The men climbed frantically up the masts. Why didn't the other ships notice them? One of

the men fell shrieking from the main mast into the water.

The whole ship then sank silently into the water and to this day on the waters of Portney, the old sea dogs say that it is unlucky to sail in a last ship.

Gall Fratles, 5th Grade.

Easter Vacation
On Distant Ranch

If your father owned a big ranch, wouldn't you look forward to spending a vacation on it? Well, then, you can imagine how much fun it was for me to imagine what I'd do on my father's ranch when Easter vacation came. I rode a horse, helped plow, and plant flowers, and did many other things that I love to do. My father's ranch is about 300 miles from here. I wish it were nearer so that I could get to it more often!

—Marshall Ruhl, 6th Grade.

COMMENT ON SUNSET SCHOOL AFFAIRS.....As the Pupils See It

Sunset Pupils Comment
On Scholastic Program

As you already know, Carmel is organizing a new Junior high school for the students of Sunset. The elementary grades will be located as far down towards the lower play field as possible, this will then give the Junior high school the upper section of the building.

There will be many different studies that the Junior High School students will have such as: Modern Life Science, Healthful Living (which takes place outdoors), Home Room Guidance (will be a study period). There will also be six electives, which are the following: Art, Practical Arts, Cooking, Journalism, Music and Dramatics.

School will begin in the morning at 8:40 o'clock and will end at 3:30 o'clock. This will give seven 50-minute periods.

In my opinion this Junior High School will be a big success to Carmel.

—Irving Williams, 7th Grade.

In the coming year I think the courses at Sunset are going to be lots better. I feel that we will learn more because of the variety of studies that we will have that we don't have now. In having more studies in one day it will make us more interested and more satisfied.

In the seventh we will have the opportunity to take both cooking and sewing which will prove useful in later years. In the past the seventh has been able to take cooking but not sewing.

We will have more kinds of arts and more materials to work with that we have not had in the past.

On the whole I think every thing next year will be "The Tops."

—Irene Erickson, 7th Grade.

I like the new Healthful Living course better than the old one because we have more time to be out in the fresh air. We have 50 minutes every day for Physical Education. Before we only had 20 minutes. We are having a new Physical Education teacher also. We have more time to learn and play different games. Some of the games we are going to play are Badminton, Basketball, Swimming, Tennis, Baseball and Archery.

I think the idea of being one of the first students to enter the Junior High School is "swell", because when I grow up I can say to my friends that I was one of the first to go.

—Noreen Kelsey, 7th Grade.

I think we will have a fine Junior High School here next year. I think I am going to enjoy it very much. Our course is well laid out for us, and I think we have a well-balanced choice of studies. I know that I will not feel like a new pupil in our school.

Summer Planned
for Silver Lake

This Summer I am going to Treasure Island Boys' Camp, which is located in the Sierra Nevada mountains. The Island itself is in the middle of Silver Lake.

We can fish, hike, swim, ride horseback, go on camping trips, on horse, or in a truck.

About two or three years ago when I was up there I overslept on a Sunday morning and didn't get to breakfast on time and some of the boys dumped me in the lake with all my clothes on.

They also have a trading post where you can purchase post cards, stamps, fishing poles, reels, bait flies, writing paper, candy, gum and ink. I will be there for a six weeks' vacation.

—Peter Hatley, 7th Grade.

because almost everything of importance has been explained by my teacher. I do not think I will have a hard time, but instead have a lot of fun, and learn many new and interesting things.

—Milton Thompson, 7th Grade.

The new high school is being wished for and it will be built at the Hatton Ranch site, as you know. We, the children of Sunset, are glad to have a new school to go to, although we love Sunset.

The new high school and junior high school is going to be lots of fun, with a swimming pool and tennis courts. Just think of the fun we will have in the following years.

—Kathleen McAulay, 6th Grade.

This Little Girl Will

Enjoy Carmel Vacation

With Overnight Hikes

Summer is here again with its ever-lasting jolly days. This summer I am not going to spend my vacation in Carmel. I am going to go to the Fair for two weeks and then to Yosemite. It will be a lovely vacation hiking, swimming and horseback riding all day. There will be everlasting sunny days (I hope), but if it rains just take it sneezy, put on your bathing suit and run out in the rain barefooted.

We will sleep in a tent with a wooden floor to it, and if it rains while we are asleep I certainly hope the tent doesn't leak like the last time I went on an overnight hike.

—Jane Broderick, 7th Grade.

SUNSHINE AT SUNSET

The First Grade teacher asked a small miss if her mother ever asked her to be patient. Oh, no, Mother just says, "Hold your horses!"

After announcing to her group of First Graders that the Blind Artists were giving a program next day, a small boy asked, "What time is this blind-folded program?"

A primary teacher asked her children for some literary contributions to the current Pine Cone and a boy jumps up exclaiming, "I can sell 'um."

WHO MINDS THE FOG?

JUST SLEEP IT AWAY!

When school is out, most of us will be expecting good weather. Most of the time the good weather is when we're in school. During vacation it will probably be foggy but it doesn't matter with me, because I sleep all morning and by the time I get up, it is clear.

—John Graham, 7th Grade.

THE ILLUSTRATIONS

The many linoleum cuts which illustrate this issue of The Pine Cone are entirely the work of the Sunset children, who both drew the designs and cut the blocks.

CARMEL BOYS MAY ATTEND
Y. M. C. A. JOLON CAMP

Boys 8 to 18 years of age of Carmel and the peninsula have been invited by the Salinas Community Y. M. C. A. to participate in the summer camp privileges of Y. M. C. A. Camp Kilburn in the Santa Lucia Memorial Park near The Indians in the Jolon country. Two periods will be held, the first running from June 10-24, will serve boys 13-18 years of age, and the second from June 24-July 8, with a program especially interesting to the younger boys of 8 to 12 years of age.

The camp is run on a cost basis, the fee for a two-week period being but \$15, if application is made prior to June 1. After this date it is a dollar additional.

Clubs on Junior High
Program Offering Wide
Variety of Selection

In our Carmel Junior High School next year we will have many clubs. These clubs will be worked out to suit the students. They will be interesting and valuable to those who join them. One of them will be a Home Making Club, which will cover entertaining the guests in the home. It could take in cooking and sewing, however, there will be a class for these. A club which will take in foreign languages will also be of value to the students that take it. Clubs in photography will teach how to take the best kind of pictures, and how to develop them. Many other clubs in other fields of interest will be enjoyed.

—Ruth Burrows, 8th Grade.

SCHOOL-AGE YOUTH GIVES ITS
THANKS FOR MANY PRIVILEGES

Together, Carmel and Sunset have offered me a well-rounded life.

Here, in Sunset, sports of various kinds, such as tennis, baseball and basketball have been given me. From having school work, such as reading, art and music, I have learned to appreciate their fineness, while through my social studies I have gained a knowledge of the world about me.

Carmel has developed in me a desire to continue the sports taken up at Sunset as well as others which cannot be offered at school. Tennis, horseback riding and swimming may be taken up out of school.

The Harrison Memorial Library, as well as our own school library, contains many fine books of fiction as well as non-fiction. Musical concerts are given where music lovers may gather to hear fine music. Dances are given for the modern jitterbugs to "let out."

Carmel has taught me to appreciate nature. I may step out in the yard and watch the pine trees swaying in the breeze, or watch the buds on bushes blossom forth under the sun. I find pleasure in watching the sea animals and plants as the waves play about. When I'm in a city, these things are greatly missed. Everyone seems to be in a hurry to go somewhere. After returning to Carmel, the beauty of nature is appreciated even more.

My sincere thanks to Sunset School, the teachers, to Carmel, and the fine people that make up this wonderful corner of the world.

—Lila Whitaker, 8th Grade.

Here we are, leaving Sunset School to enter the Carmel Junior High School. As we leave, we wish to extend our thanks to the kind faculty for the help and guidance given us during our junior years.

Sunset's excellent facilities have given us every opportunity to expand our intellectual traits, but go behind the scenes and take a look at the kind citizens of this little village. They built and have maintained this fine establishment in order that we can be trained to take our places in this democracy of ours as intelligent, well-informed citizens.

So, as we leave dear old Sunset School, I think we should cheer for Carmel and Sunset.

—Joan Newman, 8th Grade.

Though I have not gone to Sunset from the first to the eighth grade, I have gone here long enough to know what kind of an education Sunset gives her students. I, personally think that it gives as good if not better education than any other school in the state.

During the last two years of Sunset, I have held class and student body offices, and have found these most helpful in assisting me to gain a first-hand understanding of parliamentary procedure. Not only in this, but in many other phases, does

Looking Ahead; Sunset
Seniors Consider Future

By looking ahead we mean, looking into our future, the career we will choose, the problems we will naturally have to meet and face.

In planning our career, before we go into high school we must get all possible information on the certain vocation that we will choose for our life's work.

When we graduate in June, we will be taken a step toward the future. Although we are only grammar school students we are looking ahead to the day when we will be holding important positions in this world, and will some day have the right to vote and take part in the governing

of the country in which we live.

I know that every child in Sunset School in the Sixth, Seventh and Eighth grades thanks the administration for working so hard to give us all the advantages that we will have in our new Junior High School. We are all looking forward to next year and the following year when we go into the Carmel Junior High School.

—Virginia McLean, 8th Grade.

As we are the future leaders of the country in which we live, we must understand the fundamentals of our government and be able to carry on any responsibility which we might have. To be able to do this, we must have an education.

In elementary school we learn about the different countries of the world, including the United States. From this, we can get a mental picture of the things that go on in the world of today.

In high school we are given a more advanced phase of history and government. We also take different subjects which will help us decide upon a profession or career.

After going through the elementary and high schools, many of us go to college to finish our education more thoroughly. But many who are less fortunate go to work right after they finish high school, in order to make a living.

Whether we complete our education with high school commencement or we postpone the completion until our graduation from college, we must take our respective places in the world and become leaders in different fields of endeavor, thus, many of our intelligent citizens take a big part in the governing of our country and must be prepared for it by an adequate knowledge of world affairs.

—Martina Tait, 8th Grade.

Trustee Kingpin
Is Mrs. Watson

This is the result of a short interview with Mrs. E. A. H. Watson of the Carmel Board of Trustees. Mrs. Watson is a very busy woman, so we took as little of her time as possible. Mrs. Watson's position on the Board of Trustees was quiet and uneventful until the new high school program came up.

Mrs. Watson is very much in favor of the Hatton Fields site. She also thinks the set-up for the new junior high is very appropriate. She is sure that if cooperation is given on the part of the pupils, the new high school will be a success.

Mrs. Watson regretted very much the resignation of Mr. Victor Graham and Mr. Frank Shea. She congratulated Miss Kellogg on her outstanding good spirit during the disagreement of the members of the board of trustees.

Mrs. Watson never thought that she would be on the Board of Trustees four years ago. When she was appointed, she was not particularly pleased, but she went on by the request of her friends. Now she is extremely fond of her position. She has never had many difficult problems until the high school came up.

We hope Mrs. Watson will be on the board for a long time.

—Vivian Ohm and Mona Sage, 7th Grade.

RECIPE IS GIVEN FOR

BOYS' PERFECT VACATION

When you take 12 tablespoons of swimming, 12 tablespoons of riding, one pint of adventure, 10 tablespoons of mystery, a quart of camping, six tablespoons of fishing, spread some sunny days upon it and you have what I call a swell vacation.

—Bill Monroe, 7th Grade.

Sunset School provide her students with actual participation in worthwhile activities.

—Alex Allen, 8th Grade.

At the close of this year I will have been attending Sunset School just a year and a half. I started in Mr. Hull's Seventh Grade, at the beginning of the second semester. There were about 40 of us in the class.

This year I am in the eighth grade, which is Miss Johnson's room. I enjoyed it very, very much. She is certainly a wonderful teacher. After I graduate this June I am going to attend the Thacher School in Ojai. I will miss Sunset very much.

—Fred Stanley, 8th Grade.

When I was six years of age I started school in Sunset in the first grade. I have been in Sunset ever since, and am graduating in June. I have never been in any other school but Sunset. I think I have been fortunate to be able to go through a school as nice as Sunset. I have enjoyed my stay for many years, and I hope the pupils to come will enjoy theirs as much. I think they will. I want to thank all of the teachers who brought me through successfully.

—Bill Plein, 8th Grade.

I have been living in Carmel for four years and I like Carmel better than any other town or city in which I have ever lived. Carmel is different. It has the beach, the Carmel river, Point Lobos, and you can go fishing, hunting or camping. Carmel also has a very good school. I've gone to four other schools, but Sunset is the best. I've been at Sunset since the fourth grade and the teachers have all been very good to me.

—Charles Heebner, 8th Grade.

MRS. HULSEWE HOSTESS TO
ST. MARTHA'S GUILD

The members of St. Martha's Guild of All Saints' Church met last Sunday afternoon at the Rectory for their quarterly business meeting. After the meeting a party with games, stories and refreshments was enjoyed. Mrs. Hulsewe was the hostess and the members present were Joan and Sue Dekker, Joan and Biz Carr, Christine Leffingwell, Anne Hodgson, Jacqueline Hillis, Carol Jane Hill, Lucy Wolter, Joanne Nielsen, Pamela Dormody, Joan Kitchin, Carol Walker and Audrey Mawdsley.

BOATING IS GRAND FUN
FOR SUMMER VACATION

Well, summer's here again and time for me to fix up the old boat, so I can have some fun in vacation time. We have a lagoon on our place and an old flat-bottomed boat. It isn't much, but it's enough to have fun in. I am looking forward to having a good time this summer.

—Raymond McDonald, 7th.

LOOKING FORWARD

Sunset School has given us many opportunities which many elementary schools would be unable to give us. For example, individual attention in the work that is hardest for the individual pupil. The teachers encourage you in what you are most interested. If you happen to be interested in art, your teacher permits you to spend your free periods in the art room or lets you make pictures for the room. By doing this, you may discover what you want your career or profession to be.

In high school we begin studying seriously for our profession. Next year we will have a Junior High School in Carmel. In this Junior High School there will not be so many children as there are in city schools, therefore, we will have an advantage over them. In high school, as in elementary school, we will have individual attention.

Many of us will go to college, and many will not. Those who do, will benefit by having this attention that was given them when they were in elementary school and in high school. Those who do not go to college will find they have benefited by the training that has been given them when they start finding positions by which to earn their living.

Part of our thanks to our success will go to Sunset and the Carmel Junior High School.

—HENRIETTA ERICKSON, 8th Grade.

An education is essential if we are someday to help in the governing of our democracy.

As for an elementary school education, Sunset offers one of the finest in the country. High School and then College is what nearly every boy and girl in this graduating class is looking forward to. With our Carmel High School in mind, we will be provided with an institution that will be able to challenge any other public high school from the standpoint of educational facilities.

To many, college is just a dream. We hope their dream materializes, so that our democracy will have better men and women to govern and maintain it.

—CORNELIA BELL, 8th Grade.

THANKS TO CARMEL

Thanks to Carmel for what she has done for us by providing such an outstanding school as Sunset, and teaching us so many fine things. We also thank the P.T. A. of Carmel for their interest in our welfare and the social activities they have provided for us, such as our Carnivals, food sales, and different programs. In this way we want to say how much Carmel has made us so happy.

We also would like to say how very nice we think it is that we are able to have our own Junior High School, which will consist of the 7th, 8th and 9th grades. We think Carmel is indeed perfect to build a new High School for us, in which we will be able to carry on our education, and we appreciate it.

—PEGGY GARGUILO, 8th Grade.

THANKS TO CARMEL

We, the students of Sunset School, wish to thank you, the people of Carmel-by-the-Sea for making it possible for us to attend this school, which you provided for us.

We are trying to repay you by becoming better citizens of this community in which we live. We can do this by working hard at school. We can also thank you by taking care of our community and respecting everyone's civil rights, by being good, loyal citizens.

—DORIS EVANS, 8th Grade.

TREES

*Trees grow so tall and high
They almost seem to touch the sky.*

—GAIL HALSEY,
ANITA MACHADO,
First Grade.

SAILING

*The moon shines so bright
It looks like a little boat
Sailing in the night.*

—DICK LANEY,
First Grade.

BUGS

*The little bugs go climbing around
They dig-a-dig-dig in the ground.*

—JIMMY KENDALL,
CARYL JANE HILL,
First Grade.

"PALS"

*Sunset is a place of pals,
You play with boys and you play with gals.*

*Some pals are Jeany, Kenney, Don and Paul,
Some are skinny, others fat and tall.*

*We take part in all of the sport of which we know,
On Saturday, Sunday we go to the beach or show.*

*We practically collapse we have so very much fun,
But we play and we play until the day is done.*

*We play in the sand dunes with ol' man Kay,
And at the end of the day, we "hit the hay."*

*We take what comes and share alike,
We buy food for a picnic and go on a hike.*

*We reach the end of the day, and end of the fun,
When down goes the sun, and the day is done.*

—GORDY MIYAMOTO, 8th Grade.

TREASURE MOUNTAIN

*On our trip to the Fair,
We were caught in a snare,
In the building of Mines and Metals.*

*Far from lagoon and fountain,
We found Treasure Mountain,
And lingered a long time there.*

And we thought:

*With tools that are finer,
There's many a miner
Who really gets gold.*

*And then with a frown
Another goes down,
And only gets cold!*

—GARETH GEARING, 6th Grade.

HORSEBACK RIDING

*Jump up on the horse and away we go
We'll ride all day, and what fun, heave ho!*

*Then over the fence, with his head very gay,
The horse will jump, then give a neigh.*

*Then up with a start, we're galloping fast,
We're racing away, the wind we've past.*

—JANE BRODERICK, 7th Grade.

CARMEL'S OWN ADULT SCHOOL

Next year the Adult Education program is going to be bigger and better than ever. Now listen carefully, you grown-ups, because this concerns you!

The teachers who have been working for the past year have been contacted so that we may find whether they are going to help educate you for another year, or whether they have decided that they like the Hawaiian Islands better.

Don't you go away now—you have to be asked something, too. We want to know if you were a member or were planning to be a member, what current topics you would like to take up besides the many already offered.

Next year, besides English, Art, Literature, Gardening, Music and Physical Education, there will be many other new courses. There will be a course in typing for anyone interested. Of course you must have enough people to do it or it can not be done. There must be an average daily attendance of at least ten persons in order for the classes to continue.

In concluding this editorial, I should like to say that it would be wise for you to go and see what it is all about. It will be a wonderful chance to improve your mind.

—SUZANNE WATSON, 7th Grade.

PERSONALITY

Anyone may have a pleasing personality, but not all people have one. To have a fine personality doesn't require good looks, pretty clothes, a fine house, or lots of money. Personality development can be helped by a friendly smile and a cheery word. Be a good speaker but also be a good listener. Treat other people as you would like them to treat you. Try always to be friendly and speak to everyone. We all want to have a pleasing personality. Nobody likes grumblers and pessimists and nobody ever will, so you might as well make up your mind to be pleasant. You never will have friends if you aren't.

We can all do something to develop a more pleasing personality, which will help us in high school and through life.

—PAT TARRANT, 8th Grade.

LOOKING FORWARD

Everyone is looking forward to something, but there is one thing for which most of us can hardly wait, and that is the Carmel High School. We want to know if we are going to have this or that, etc., in our High School. Of course we want to know and why not? We are going to attend this school, and we would like to have some ideas about it.

We hope to have many new and interesting things in our High School. I cannot take the space to mention all of them, but I know we'll enjoy them.

Many boys and girls who have left Carmel will return to finish their last years of High School here. I am sure that we will all be pleased with the new Carmel High School and will appreciate it.

—FRANCES PASSAILAIGUE, 8th Grade.

LOOKING FORWARD

The pupils of the present 6th, 7th and 8th grades are looking forward to our new Junior High School plan for next year. The 7th, 8th and 9th grades will have their own student body. They will have seven periods a day and will get three minutes between periods for passing from one class to another.

We hope and we know this Carmel Junior High will turn out to be a great success.

—DOROTHY OTTMAR, 8th Grade.

"Spud" Gray Now Where-to-Find It Service on Ocean

"Where to find it" Service, founded by Everett "Spud" Gray, well known to Carmelites, especially through his theatrical activities, brings a new service to people of the community, whether merchants, residents or visitors.

"There has long been a need for a service which will assist visitors in finding friends here, in learning where to go and what to see, in fact to assist in many small ways," Gray declared. "I have looked into the prospects for a long time and now I am ready to give Carmel this new service."

Gray is located on Ocean avenue opposite the Post Office.

Red Cross Seeks Clothing to Fill Many Demands

"Owing to the many demands this spring, our clothing department has been greatly run down and replenishments are most necessary now," according to Mrs. Kohler, in charge of the Red Cross supply room. "We can use everything in the shape of wearing apparel and I hope that everyone will check over their wardrobe and see what can be spared for those in need."

Cooperating with the Disaster Relief Committee of Carmel Red Cross Chapter, under the leadership of Col. T. B. Taylor, the U. S. Naval communication Service, Twelfth Naval District in charge of Monterey and Santa Cruz counties are working out a plan for radio communication service in time of disaster.

In the event of disaster anywhere in the territory, the Navy department, through this service, will be prepared to furnish radio communication service facilities to any community in need, when normal lines of communication are disrupted.

This would consist of a portable radio station and operators to run it set up in a convenient place. Throughout the country Red Cross is always the leader in all forms of rescue and housing efforts. All branches of government service are cooperating.

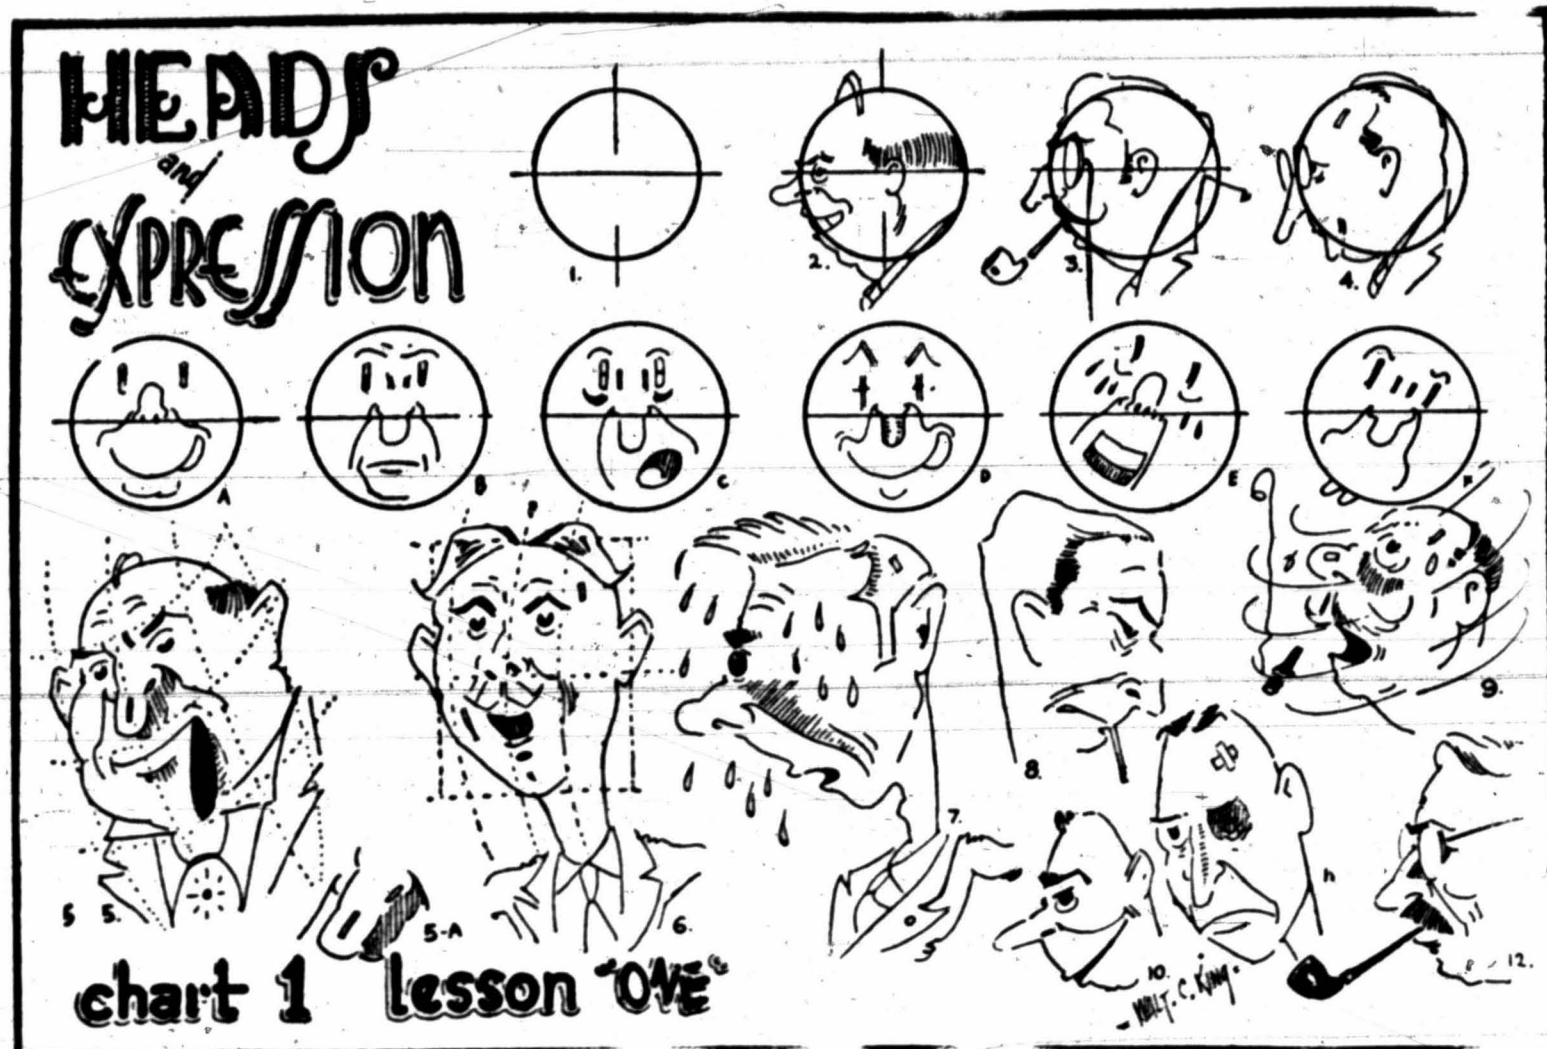

BACH FESTIVAL REHEARSALS SET FOR SUNDAY NIGHT

On Sunday evening at 7:30, there will be a special rehearsal of the Bach Festival chorus under Madeline Currey, to prepare for the Usigli rehearsal on the following Sunday evening. It is important that all active in the Festival be present. Rehearsals are in the music room of Sunset school.

New participants are invited and basses and tenors are especially needed. The orchestra rehearsal will not be held until a week from Sunday afternoon at 2 o'clock.

FREE! If Excess Acid causes you pains of Stomach, Ulcers, Indigestion, Bloating, Gas, Heartburn, Belching, Nausea, get a free sample of UDGA and a free interesting booklet at Fortier's Cut Rate Drug Store.

"E-Z" KOMICS - - - - - for Amateur Cartoonists

Amateur cartoonists who would like constructive criticism of their work can get expert advice by consulting Walt King, our genial staff cartoonist. Amateurs may either bring or mail their drawings to the office of this paper. King, with years of experience behind him, has worked on most of the leading newspapers and magazines from Canada to Mexico, so his help should be of great value. King is known as one of the most active men in the business today. At the present, with the help of his manager, Mr. Garrity, he is engaged in drawing a series of cartoons of Carmel business and professional people for our summer shopping feature.

Legion Awards Go to Pupils for Character

At the 11 o'clock assembly today, Col. R. R. Wallace will present the American Legion Award of Merit to Avelline Quinn and Bill Christler-son.

Every year the members of the graduating class select the boy and girl whom they consider most deserving of this award. The girl's award is based on courage, character, service, and companionship. The boy's award is based on honor, courage, scholarship, leadership, and service.

We know that Avelline and Bill will be very happy to know that their classmates have selected them for this award.

—Cynthia Klein, 7th.

Phelan-Sullivan Home In Santa Cruz Given to Society of Jesus

The 11-acre Phelan Park and home of the late Senator James D. Phelan in Santa Cruz near the lighthouse there was given last week to the Jesuit order. The estate was long the Phelan-Sullivan home and it was there that Noel Sullivan of Carmel Valley spent many years in his youth.

The place was built in the early 1870's by James Phelan, father of Senator Phelan, and boasted a fine stable, a kennel of hunting dogs, open air plunge, bandstand and other luxuries in the "good old days." Recently it became the property of Mr. and Mrs. Richard Doyle, and Mrs. Doyle, niece of the senator. The free gift deed was handed to the Very Rev. Francis J. Seeliger, of the University of San Francisco, by Miss Alice Doyle.

TRY PINE CONE WANT ADS FOR RESULTS.

Walt C. King, cartoonist of "Comic Kapers", who is now in Carmel and will conduct a pictorial guide to shoppers on the peninsula.

Unusual Photo Exhibit June 7 at Casa Verde

The Casa Verde studio of Sibyl Anikev in Monterey, near the Customs House, will have on exhibit the unusual factual photography loaned by the Farm Security Administration from June 7 for two days.

The connection between these photographs and the latest book by John Steinbeck, "Grapes of Wrath", is so obvious that Mrs. Anikev is expecting considerable interest in the exhibit. The exhibit pictorially tells much of the same story of lost soil and the merciless revenge of improperly exploited natural resources.

The studio will be open from 11:30 to 5:00 every day including Sunday and is located on the street which runs directly up from Fishermen's Wharf.

New Blewett Creamery Accorded Warm Welcome In Debut in Village

This week many Carmel people have found occasion to visit the new Blewett's Creamery at Ocean and San Carlos, and have found an efficient staff rendering service in full swing.

C. H. and Bill Blewett, who operate similar establishments in Stockton and Lodi, have been busy for several weeks installing modern equipment and it now shows up in splendid good taste through the big windows on Ocean avenue. Bouquets of flowers were in evidence at the busy opening last Saturday and since then the Blewetts have enjoyed a gratifying patronage.

They make their own ice cream and frosted malted before the eyes of the public and at counters and booths many varieties of refreshments and sandwiches are served.

Funds Requested to Send Deserving Children to Camp

There are camps of many kinds with accommodations to train and furnish recreation to children of all ages during the summer months. A few of these are the Y.M.C.A., Boy Scouts and Girl Scouts. Children are grouped according to age and interests and enjoy the benefits of sports, habit formation, social activities, and healthful living. The camps are always located in spots of natural beauty, where the children may have new experiences.

Now, as other things do, summer camps cost money. Many children who have never been away from home would like to go to one of these camps and perhaps it is just the financial part which is keeping them away. So if you would like to make some boy or girl happy, will you leave your contribution to the summer camp fund at the Pine Cone office.

—Elinor Smith, 7th Grade.

THE SEA

Down by the sea
There's a great oak tree;
Its branches are wide,
And it's easy to hide.

—Nancy Lee Watson.

Comic Cartoons by King to be Shopping Guide

Walt C. King, nationally known artist-cartoonist and his manager, Charles E. Garrity, arrived in Carmel this week to join the staff of The Pine Cone.

Garrity, known to newspaper men throughout the country, is a veteran of over 22 years in the news and magazine field and has worked on over 500 different publications in over 44 of our 48 states—specializing in art-layout and cartoon advertising.

Walt King needs no introduction in California and lives up to the byline as "Daddy of all Hollywood Cartoonists." Local Nobles who attended last year's Shrine convention in Los Angeles will remember Walt as head of the Artist Village on famed Olvera street as well as his convention fun guide, "The Spot-Lite." When not busy with his "Ink Flashes," "Comic Kapers" and drawing caricatures of this one and that, Walt likes to get out and meet people too, and his reason for being in Carmel is to meet people and draw pictures, which he would rather do any day than eat.

The large cartoon on Walt's drawing board will represent Carmel's business and professional leaders at their best and will be the opening feature for a new and unique "Shoppers Guide" to appear in this paper soon. Featuring "Real Buys"—"Real Fun"—and Prizes Galore for the whole family.

A LONG, LONG TIME AGO

Do you remember out in the sea,
When we went out, just you and me,
A long, long time ago?

Do you remember you and me,
When we went out to sea,
A long, long time ago?

—Jane Coughlin.

Carmel 1473 or 2

Dr. and Mrs. James Hopper, of San Francisco and formerly of Carmel, concluded their vacation here this week. Dr. Hopper, who graduated from the University of California medical school recently, and Mrs. Hopper, who is in the advertising department of Sherman Clay & Company, stayed while here in the stone house which Dr. Hopper built during high school days on Eighth near Junipero.

The Carmel unit of the American Legion Auxiliary this week expressed sincere appreciation for the fine co-operation given in making Poppy Day last Saturday a success in behalf of the Disabled Veterans to whom the money collected will be handed over.

Mr. and Mrs. Charles A. T. Cabaniss of the Country Club have been visiting relatives in Highland Park, Ill., and report enjoying their unhurried trip across the country.

Bain Reamer, brother of Mrs. Sarah Reamer Chance, and son of Mrs. George W. Reamer, Carmel Point, is active in the Kimberly, Nev., mines, and will spend a month's vacation in Carmel during the summer.

Charles Winninger and Deanna Durbin in "Three Smart Girls Grow Up" which plays at the Carmel Theater Sunday, Monday and Tuesday.

This Saturday and Sunday will see the formal opening of the Pebble Beach Racquet Club. The occasion will be marked by an invitational tennis tournament confined to mixed doubles to be held at the Del Monte Lodge Beach Club courts. Mrs. Allen Griffin is the head of the committee in charge of the affair and Leo Kohler, who is to be the professional at the club, will have charge of the actual tournament play. On Sunday lunch will be served for the members and their friends from 12 to 3 o'clock on the terrace of the Lodge; when Nick Marotta and his Serenaders will play accordion music. Following lunch the finals of the tournament will be held at 3 o'clock, before a gallery composed of members and invited guests. President of this recently formed club, which is now becoming very active, is William Burnham; vice president, Mrs. Paul Winslow, and secretary-treasurer, Ashton Stanley.

Mr. and Mrs. Charles Faser of San Jose were the week-end guests of Mrs. Faser's sister and brother-in-law, Mr. and Mrs. J. E. Abernethy, of Carmel.

Ensenada, Mexico, was the destination of Mr. and Mrs. Rudolph Winter, when, along with their daughter, Sylvia, they climbed into their car on Sunday. The Winters plan an indefinite stay in Mexico but are eventually returning to Carmel when they will occupy their recently purchased home in La Loma Terrace. Last Friday evening Mr. and Mrs. Winter invited several of their friends to their home for cocktails and to bid them farewell. Those gathered to wish the Winters bon voyage were Mrs. M. M. Gragg, Mrs. Julia Breinig, Mrs. Sargent, Mr. and Mrs. J. P. Gilbert, Mr. and Mrs. Fritz Wurzmahn, Dr. and Mrs. R. A. Kocher, Mr. and Mrs. Francis L. Lloyd, Mrs. Marion Todd, Mrs. Katherine McFarland Howe, Miss Winnifred Howe, Miss Anne Greene, Adolph Telchert and James Costello.

That the Carmel Music Society possesses a well-developed sense of humor was demonstrated at their annual Jinks at the Mission Ranch Club Thursday evening of last week. Members and friends in both fantastic and beautiful costumes came to laugh at the parodies on serious musical "art", the "dance", the Bach Festival, and even great international figures such as Chamberlain and Hitler. The last two were impersonated by Dr. R. A. Kocher, who also coyly "Pique-Niqued" a la Angna Enters. Jack Gilbert was the glib master of ceremonies, Rudy Winters was Carmel's rustic poet for the evening and also satisfactorily settled such pressing matters in the village as the site of the new High School, the sewer situation and the new city hall. Anne Greene abandoned the piano for the evening and helped by a sofa pillow became one of the greatest singers of the age, assisted on the piano by Winnifred Howe. Winnifred was also the leader of the orchestra composed of instruments rare and wonderful and players most temperamental, although at times they played together in swelling volume with extraordinary effect. Dr. Kocher, with the aid of a fine movie told of the adventures of a wealthy man's scientific expedition to the Monterey Peninsula and Big Sur region. The evening wound up with a splendid Schnitzelbank made up and led by Fritz Wurzmahn. Following the program the members stayed to chat, dance and eat the buffet supper served. It was a fine and amusing evening and now with the nonsense out of their systems, the members of the society can settle down for the serious business of the new season.

Married at All Saints Church at 4 o'clock last Tuesday afternoon were Mary Agnes Phillips and Ralph Otto Hamson of Paso Robles. The Reverend C. J. Hulsewé officiated at the ceremony which was attended only by members of the immediate families. The church was decorated for the occasion with white flowers and the bride wore a simple white afternoon gown and hat. Following the edding, a buffet supper was served for the bride and groom and guests at the San Antonio street home of the groom's aunt, Mrs. Howard Payne of Carmel. The decorations in the house were carried out with pink roses and assorted white flowers.

The holiday week-end filled all the guest cottages at the Mission Ranch Club many of the visitors stopping over for a week or longer. Among those who spent the week-end at the club were Mr. and Mrs. J. Reed, Mr. and Mrs. Charles Page and Mr. and Mrs. Stanley Page, all from San Francisco; and Mr. and Mrs. Charles R. Page and Mrs. Stanley Page, Sr., of Los Gatos. Staying on longer are Mr. and Mrs. Richard S. Bylin of Berkeley, and Miss Ara Haswell of Hollywood.

Saturday night, June 10, is the date set for the dance and entertainment at Mission Ranch Club, planned by the Carmel Players. From what has been told it promises to be a fine evening of fun with a good orchestra for dancing.

Sarah "Sis" Reamer Chance, daughter of Mrs. George W. Reamer of Carmel Point, is in Washington, D. C., having been transferred from the San Francisco office of the Farm Security Administration. She flew to the East last week-end.

The members of the Mission Ranch Club feel the urge of a costume party upon them and so at their request there will be a dress-up dance on June 24 when prizes for the most amusing and the best costumes will be given.

In Carmel for a short time this week was Fred Langhorse, who is an architect connected with the William Wooster firm in San Francisco. Mr. Langhorse was accompanied on his trip here by his mother and came for the special purpose of seeing the recently built houses in Carmel.

Carmel 1473 or 2

The first Sunday swimming meet of the season at Del Monte Roman Plunge will be held this week-end when the participants will be 40 students from the Douglas school. Featured on the program will be diving, racing and swimming for form events. The meet starts at 1:30. Among those taking part are Che Moody, Barbara Ames, Mary Barthelme, Roe Marie Arlen, Micky Grinstead, Phyllis Havenstritz, Marie and Edith Elizalde, Sheila Moore, Muriel and Joseph Glasgow, Virginia Shephard, Winnifred and Lee Louise Van Ess, Stanley Simonson and Ann Whitman.

Featured affair at the Monterey Peninsula Country Club on Sunday will be the second half of the home-and-home golf tournament with the Sunnyside Club of Fresno. Luncheon will be served on the patio of the club when Nick Marrotta and his accordion will be on hand to furnish music.

Governor Olson spent last week-end on the peninsula, staying at Del Monte Lodge. This is one of the governor's many visits to this region where he finds the rest and quiet necessary to him. Although we may not have the capital on the Monterey peninsula, we have the equivalent, apparently, of a California "Little White House."

Spending several days in Carmel last week with his friends, Mr. and Mrs. Laidlaw Williams, was David Lack of the famous Dartington Hall School in Devonshire, England. Mr. Lack was on his way home from the Galapagos Islands where he went as the co-leader of the London Zoological Society's expedition. Mr. Lack and Mrs. Williams went to San Francisco for the latter part of the week where they visited the Golden Gate International Exposition.

Week-ending on the peninsula last Saturday and Sunday were Miss Mary Barchi and Miss Fulton of the San Francisco Chronicle.

Three Philadelphians, Misses Clara, Johanna and Helen Boericke, are spending several weeks at La Playa.

Visiting Mrs. David Scripture in her Hatton Fields home last week were her two sisters, Mrs. J. H. Ficus and Miss Josephine Loveland, both from San Diego. Mrs. Ficus was also visiting her son, David, who lives in Carmel. In honor of the visitors from the south there were several entertainments given. Among those who were hostess to Mrs. Ficus and Miss Loveland were Mrs. J. E. Abernethy, Mrs. Margaret Moore, Mrs. William Harmon, Mrs. Willard McGraw, Mrs. James Downey and Mr. and Mrs. L. A. Williamson of Pacific Grove.

Peter Harnden, former Carmel resident, passed through the peninsula on his way from Mexico to San Francisco. He was formerly the husband of Moira Wallace, now Baroness von Schoeler of New York and San Francisco.

Mrs. Grant Wallace and her son, Kevin Wallace, who now live in the San Francisco bay area, returned for a brief visit last week-end to their old Carmel home. They stayed with Mrs. Marie Gordon. Kevin Wallace is a reporter on the San Francisco Chronicle and is covering the Fair with Reg Clappett, son of Mrs. F. W. Clappett of Carmel.

Dr. Daniel Crosby of Oakland, who spend a great deal of time in Carmel, returned this week to Oakland, where he has his practice. Earlier in the week Dr. Crosby and Hilary Belloc spent a day fishing on the Avila ranch along the San Antonio river near Jolon.

The President of Nicaragua, Anastasio Somoza, accompanied by Mrs. Somoza and their daughter, Lillian, spent three days this week on the Monterey Peninsula, stopping at Del Monte Hotel. With President Somoza were Dr. Manuel Cordero Reyes, Nicaraguan minister of foreign affairs; Leon De Bayle, minister to the United States from Nicaragua, and L. C. Tubbs of the United States Department of State. The president is actively interested in agriculture and while here visited the Carmel Valley to see ranching in this district and also to look at the horses bred in the valley.

The German consul in San Francisco, Fritz Wiedeman, accompanied by Mrs. Wiedeman and their two daughters, were week-end guests at Highlands Inn. Also at the Inn recently have been, Dr. W. E. Walsh of San Diego; Mr. and Mrs. C. N. Jamison, Hillsborough; Dr. and Mrs. S. W. L. Tydeman, of San Francisco; Mr. and Mrs. Vergil ozeman, of Dallas, Texas; Miss Peggy de la Guere, Paris, France; Mr. and Mrs. Ernesto Bitero of Guatemala and their two small sons; and the following honeymooners: Mr. and Mrs. H. M. Elder, San Francisco; Mr. and Mrs. J. Gardner, Los Angeles, and Mr. and Mrs. Foster Markolf of Pasadena.

Miss Mary Baracchi and Miss Janice Fulton, both of the San Francisco Chronicle, were on the peninsula for the week-end during the convention of the California Business and Professional Women's Clubs at Del Monte.

Milton W. McLaren, Jr., son of Mr. and Mrs. M. W. McLaren of Carmel, will soon be home from New Mexico Military Institute at Roswell. He is enrolled in the high school division.

Miss Carolyn Anspacher of the San Francisco Chronicle, one of several newspaper people to spend some time on the peninsula lately, is on a two-weeks vacation and is at La Playa with her friend, Miss Evelyn Kalske of Berkeley.

Miss Jean Mary Stewart, of Carmel Point, became the bride of Robert Ridley, Jr., of San Francisco, at St. John's Chapel at Del Monte last Saturday. Rev. Theodore Bell officiated. Mrs. George Luker was her sister's attendant. Robert Ridley was the best man for his son. Mrs. Charles A. Stewart, the bride's mother, was present for the Episcopal wedding. The couple spent their honeymoon in Carmel.

Dr. and Mrs. Daniel Crosby, who have been spending the past few weeks in Carmel left on Wednesday for their home in Piedmont.

IN PLEASURE OR IN SORROW

*In pleasure or in sorrow
In happiness or woe
God's tender love and mercy
Is with us as we go.*

*The path is often dreary
The way bestrewn with fears,
But close beside us hourly
Is Christ to dry our tears.*

*We often do not feel Him
Nor seek Him in our grief;
He is our loving Shepherd—
A solace and relief.*

*A Friend who ne'er does alter;
It's we who wander far
To drift and weakly falter
And lose our guiding star.*

*But as we journey onwards
A day, a year or so
The loving Hand to help us
Is ours, we surely know.*

*Ever thus our lives we build
In happiness or woe,
If hearts and minds with love be filled
Our star will brightly glow.*

—ELIZA V. COCKBURN.

The Carmel Community Church Auxiliary is staging the annual picnic at the B. H. Schulte ranch in Carmel Valley on Tuesday. Those going to the picnic will meet at the Church at 11:45.

Mr. and Mrs. Ricardo Cortez of Hollywood have been at La Playa Hotel for a few days. Mrs. Cortez remained for another week when her well known husband was called back to the film center.

Dr. and Mrs. R. Legge of Berkeley, who have recently returned from a trip round the world, were the guests this week of their daughter and son-in-law, Mr. and Mrs. Fritz Wurmann of Carmel.

The next meeting of the Musical Art Club will be held at the Peninsula Country Club at 8 on Tuesday evening, when solos and choruses from "Carmen" will be heard. Harriette Jarvis and Allan Wyatt will direct. Other special features are also on the program. The soloists, chorus and small orchestra will be from the adult education project in Salinas. Miss Cora Mae Kepner will accompany.

"Ten Minutes by the Clock", Play About Nonsense

On and off through the year eight of us in the two Fifth grades have worked on a play called "Ten Minutes by the Clock", by Alice C. D. Riley. Miss Baer has directed the play.

Several times when we thought we were ready to give the play something happened so that we could not give it. Now that it is finally going to be given today at 11 o'clock, we hope everyone will come to see us perform.

The characters are: The King, Ty Burhans; the Queen, Donna Ruth Townsend; the Queen's Page, Carol Walker; the Gypsy, Charlotte Dawson; Pompom, the Butler, Ann Hodgson; Bitter-Batter, the Cook, Nancy Lee Watson; Dux and Dox, Lackeys to the King, Mary Jean Elliott and

Mr. and Mrs. John Davis of San Francisco have spent the last two week-ends in Carmel occupying Magic Casements on Scenic Drive. Mrs. Davis is the sister of Mrs. Keith Evans of Carmel.

Mr. and Mrs. Trevor Dougan of Cheyenne, Wyo., spent Tuesday in Carmel as the guests of Mr. and Mrs. Neil Bosworth.

There was no fire to mar proceedings at the Mission Ranch Club bridge tournament this week. But when the scores were added up there was the surprise of a tie for first place. Those tying were Mrs. G. Willis and Mrs. R. Sheehy and Mr. and Mrs. S. A. Peck. Second place went to Mr. and Mrs. P. H. Low.

Guests at Peter Pan Lodge this week included Mrs. Ralph Priest and Mrs. Robert D. Lawrence, both connected with the Teacher's College in Santa Barbara; Miss Ruth Taylor and Miss Grace Anderson of New York City, who are with the Children's Bureau of Washington, D. C.; and Mr. and Mrs. S. C. Einfeld of Los Angeles. Mr. Einfeld is vice-president of Warner Bros. and in charge of the publicity department. Also at the Lodge were Mr. and Mrs. E. van Hall of Waarscht, Hatten, Holland; Mrs. M. L. Rolling of Hollywood and Mr. and Mrs. M. Weishart. Mr. Weishart is also with Warner Bros.

"Uncle Tom" and Brilliant Olio Opening Tonite

The famed characters of "Uncle Tom's Cabin", old American theater favorite, strut the stage again (and cross the ice floes) at the First Theater in California, Monterey, starting this evening and continuing tomorrow and Sunday nights.

The outstanding cast for "Uncle Tom's Cabin" is as follows:

Uncle Tom, a faithful slave — George Smith.

Legree, St. Clare—Gordon Knoles. Gumption Cate, Whipple Gregerson.

Shelby—Verne Williams.

George Harris—Harry Perkins.

Deacon Perry, Haley — Allison Shoemaker.

Marks—Louis Dubin.

Eliza, Cassy—Willa Mae McIntosh.

Marie, Emmeline — Jessie Joan Brown.

Aunt Ophelia—Betty Bryant.

Topsy—Carol Walker.

Little Eva—Mary Jean Elliott.

Sambo—Richard Barkie.

Directed by Gordon Knoles.

Master of ceremonies—Al Knight.

Topsy and Eva costumed by Rhoda Johnston.

Settings by Victor Mantila.

At the piano—Susan Duvall.

OLIO: "Ta Ra Ra Ra Boom De Ay", Connie Bell; "Home Town Sheik", Jessie Joan Brown, Whipple Gregerson, Melba Hodges; "The Crumbs I Throw", Mary Jean Elliott; "Call Me Up Some Rainy Afternoon", Brown and Williams; "Fer-

Patty Primrose Set for Singin' School Tonight

There will be a merry time at my Singing School Exhibition this week" states Miss Patty Primrose, the village singin' teacher.

The exhibition will be held tonight at the Community Church on Lincoln street and the time for the commencement of the exercises is 8 o'clock. Many folks have already bought admission tickets so that they can hear the old-time songs sung as they should be.

Patty says that some of her pupils will give speaking pieces and some

Anne Greene in Piano Recital Next Wednesday

Anne Greene, one of the ablest musicians ever developed on the peninsula and a daughter of old Carmelites, Mr. and Mrs. Charles Sumner Greene, of Lincoln street, will be heard in a piano recital next Wednesday evening at the Greene Studio.

Chosen for the evening's program by Miss Greene is music by Bach, of which she has a real understanding and rare ability to interpret with strength, Poulenc, Debussy and Brahms.

Her program will be: G major French Suite by Bach; Suite by Poulenc; "Interrupted Serenade" by Debussy; "Evening in Granada" by Debussy, and F minor Sonata by Brahms.

This will be an unusual occasion to hear Miss Greene who has studied extensively with the foremost teachers during the last few years and who returned here last year from New York to make her home once again in Carmel.

The recital, in the attractive Greene Studio on Lincoln just south of Thirteenth, will begin at 8:30.

"3 Smart Girls Grow Up" Next Carmel Offering

For her fifth consecutive success, 16-year-old Deanna Durbin improves on her previous efforts in "Three Smart Girls" with her appearance in "Three Smart Girls Grow Up" in Carmel Theater Sunday, Monday and

will sing choruses and other solos. A new organ will help out also.

Mrs. Marie Nelson Lee, is directing the entertainment features and the exhibition is being given under the auspices of the Women's Auxiliary of the Church.

The women folks will serve doughnuts and coffee after the singing is over and there will be no extra charge for refreshments. Children can get in for half price.

Players to Welcome Salinas Theater Group In Program Tomorrow

The Carmel Players have scheduled something new in the way of activities for the Green Room tomorrow night. They are acting as hosts to the Salinas Players, who will present two one-act plays, one of them of considerable length.

The plays are "Let It Burn" and "The Mask", both of which have already been given in Salinas, and the entertainment will give local people an opportunity to see what the theater group from our neighbor city is doing, as well as to meet members of that group. The time is set at 8:30, and the admission price will be 25 cents.

The following Saturday, June 10, the Players will give their dance and floor show at the Mission Ranch Club. Already a great deal of interest in this event is being shown, and acts for the floor show are in rehearsal.

Many of the Peninsula's most popular entertainers will have a place on this program. Ruth Austin and her dancers will present two numbers, including a new version of the famous "Ferdinand." Connie Bell will offer one of her popular acts. Lloyd Weer, Byington Ford, Bob Bratt, Del Page, and many other well known performers will appear.

Allen Knight's orchestra will provide the music for dancing, and all in all it promises to be one of the events of the year.

Tuesday.

Two and a half years ago she was seen in "Three Smart Girls", when she was a new singing star bursting into the Hollywood firmament. Since then she has been in "100 Men and a Girl", "Mad About Music" and "That Certain Age."

With Deanna Durbin are featured Nan Grey, Helen Parrish, Robert Cummings and William Lundigan.

"Huckleberry Finn" with Mickey Rooney, Walter Connolly and Lynne Carver is playing again tonight and tomorrow night. "The March of Time" No. 1 is an added feature with "Three Smart Girls."

Charles Guth is back on duty at the fire house after undergoing an operation.

Nazi Terror and Penal Colony on Filmarte Screen

The Filmarte Theater has outstanding and widely different offerings on the program tonight and tomorrow in "Professor Mamlock," a story of terrorism under the Nazis, "They Don't Forget", with Claude Rains and Otto Kruger on Sunday and Monday, and the Alexander Korda production, "Prison Without Bars", starting on Tuesday.

"Professor Mamlock", well attended during its local run, is a daring film presentation of the case against the Nazis. This picture has had wide acclaim in the leading New York papers and has been well attended in Carmel.

Corinne Luchaire is the new glamorous girl in Korda's "Prison Without Bars" and gives a sensitive portrayal of a reformatory girl in the film which presents a vivid cross-section of life in a French penal institution. The settings are realistic and the story gripping and dramatic.

NOTICE OF SALE OF REAL PROPERTY AT PRIVATE SALE

In the Superior Court of the State of California, in and for the City and County of San Francisco.— Dept. No. 9, Probate

In the Matter of the Estate of JOHN BERGER CARLSON, also known as BERGER CARLSON, also known as JOHN B. CARLSON, Deceased.—No. 77156.

Notice is hereby given that the undersigned, administratrix of the estate of John Berger Carlson (aliases), the above named decedent, will, on or after Monday, the 5th day of June, 1939, sell at private sale, to the highest bidder and upon the terms and conditions hereinafter mentioned, and subject to confirmation by the above mentioned Superior Court, all the right, title, interest and estate of said John Berger Carlson (aliases), deceased, at the time of his death, and all the right, title, interest and estate acquired by the estate of said deceased since his death, in and to the real property hereinafter described.

Terms and Conditions of Sale: Cash in lawful money of the United States; ten (10) per cent of the purchase price to be paid at the time of sale, balance on confirmation of sale by the said Superior Court.

Bids or offers for the hereinafter described property must be in writing, and may be left at the office of Frank M. Hultman, Room 322, No. 369 Pine street, San Francisco, California, the attorney for said administratrix, or may be delivered to said administratrix personally, or may be filed in the office of the Clerk of the above named Court at any time before the making of the sale.

The real property herein referred to and to be sold, as aforesaid, is all that certain real property situate, lying and being in Rancho Bolsa Nueva y Moro Cojo, County of Monterey, State of California, being a part of that certain 40.114 acre tract of land conveyed by Edward Blomquist et ux to Berger Carlson by deed dated March 30, 1926, recorded in Volume 80 of Official Records at page 425, Records of Monterey County, California, said part being particularly described as follows, to-wit:

Beginning at the northerly corner of said 40.114 acre tract, said corner being in the easterly side of a certain private road 40 feet wide; thence along boundary of said 40.114 acre tract the following courses and distances: South 55 1/4°

East 16.44 chains; thence South 27 1/4° West 9.77 chains; thence S. 19 1/4° West 0.79 chains to a point which is distant North 19 1/4° East 10.55 chains from the southeast corner of said 40.114 acre tract; thence leaving said boundary and running North 63° 16' West 18.46 chains to a point in the easterly side of a certain private road 40 feet wide and in the westerly boundary of said 40.114 acre tract; thence along the easterly side of said private road North 7 1/4° East 2.30 chains and North 34° 55' East 10.43 chains to the place of beginning. Containing 20.057 acres of land, more or less.

Dated: May 15, 1939.

IDA NELSON, Administratrix of the estate of John Berger Carlson (aliases), deceased.

FRANK M. HULTMAN, Attorney for Administratrix, Room 322, No. 369 Pine Street, San Francisco, California.

Pub: May 19-26; June 2, 1939.

NOTICE TO CREDITORS
No. 6507

In the Matter of the Estate of HARRY WALLACE GROFF, Deceased.

Notice is hereby given by the undersigned, J. A. Cornett, as Administrator with the Will Annexed of the estate of Harry Wallace Groff, deceased, to the creditors of and all persons having claims against the said decedent, to file them, with the necessary vouchers, within six months after the first publication of this notice, in the office of the clerk of the Superior Court of the State of California in and for the County of Monterey, or to present them, with the necessary vouchers, within six months after the first publication of this notice to the said administrator with the will annexed at the law office of Messrs. Hudson, Martin and Ferrante, in the Professional Building in the City of Monterey, State of California, which last named place the undersigned selects as his place of business in all matters connected with the estate of said decedent.

Dated June 2, 1939.

J. A. CORNETT, As Administrator with the Will Annexed of the Estate of Harry Wallace Groff, deceased.

MESSRS. HUDSON, MARTIN & FERRANTE,

California Place Names Traced to Their Origins

Not only the tourists who drive through this part of the country, but many of the native Californians themselves know little of the origin and meaning of commonplace names of this section of the coast. From Salinas southward down the valleys and along the coast highway we find names with the New England ring of "Neponset" and those of more beautiful sound, such as Cachagua, Cholame, Islals, Garapata and Ventana.

Paul Parker, who writes a column for the newsy Salinas Independent, a weekly, has gone to the trouble of applying himself as a private detective in tracing the origin of many of the unique place names encountered on a map of the Carmel and Salinas river valleys and the Santa Lucias. Here, culled from his column, is the result of Parker's research:

"Some of the Indian names still in use in Monterey county are: Chupines, muddy water—a small stream that flows into the Carmel river; Cachagua, laughing water—a creek in the upper Carmel valley; Cholame, Indian tribe—southern Monterey county; Cholone, Indian tribe; Esellen, an Indian tribe—below Monterey; Jolon, valley of dead trees—in San Antonio valley; Quinado, evil smelling—this is the name of a canyon between King City and Jolon, and it comes from a sulphur spring; Islay or Islals, wild cherry, there are several canyons so named; San Carpojo, the name of a creek on the Hearst ranch—but no one has ever been able to find out its meaning or derivation; Neponset, at twin bridges near the mouth of the Salinas river—origin unknown, though some say it's an Indian tribe name.

The names given below are Spanish and some are little known outside their immediate locality. Some places are named after the first owners, but they are not given in this list. For instance Poncho Rico—a creek that runs into the Salinas river at San Ardo—is often misconstrued to mean "Rich Frank" when it was named after one of the early owners of the San Bernardo grant. San Ardo was not named after a saint as all the books of California place names state. It derived its name from the fact that the post office was called San Bernardo and the post office department objected as it was confused with San Bernardino, so the first part of the name was taken off, making it San Ardo.

Blanco—Tom White, a British seaman, married a native woman and settled at what we call Blanco. This is the Spanish word for "white."

Many of the grants have the word rincon, rinconada, bolsa or potrero connected with them. Rincon means corner; rinconada, a corner formed by creeks or hills; bolsa, pocket; potrero, pasture. Tembladera, trembling earth, was the name given to several hundred acres of swampy land southeast of Castroville. It was caused by vegetation growing over the top of the water in lily roots, so densely that hunters could walk over them without sinking through. Ventana or window was the name given three mountain peaks in the Sur country, the sides of which looked like windows.

Marina, seacoast; Medanos, sand

dunes; Mesa Grande, big table lands; Milpitas, little gardens; Palo Prieto, dark tree; Pico Blanco, white peak; Punta Arenas, sandy point; Rapa, frog; Raton, mouse; Santa Rita, saint of the impossible; Sausal, willow grove; Tassajara, place where jerked meat is hung; Topo, gopher; Tunitas, beach apple; Las Yeguas, the mares; Las Potrancas, young mares; Estrella, star; Jacalitos, little huts; Laguna seca, dry pond; Llanada, a wide level plain; Loma Pelona, bald hill; Aromas, the odors; Avenales, field of oats; Agua Amar-gosa, bitter water; Agua dulce, sweet water; Malpasa, bad pass; Agua Mala, bad water; Canada de los Vaqueros, valley of the cowboys; Sanjon, slough; Vega, an open plain; Tular-citos, little tules; Punta de Lobos, wolf or seal point; Ardillas, squirrels; Salinas, salt marsh; Soledad, solitude; Pajaro, bird; Escondido, hidden; Dos Hermanos, two brothers; Corral Viejo, old corral; Corral de Piedra, stone corral; Corral de Tierra, earth corral; Natividad, nativity of Christ; Plecto, place for settling quarrels; Point Sur, south point; Agua del Medio, middle spring; Arroyo del Burro, Jackass Creek; Barranca, raving; Bellota, acorn; El Cajon, box; Carnadero, butchering place; Carriso, bunch grass; Cerro Chico, little hill; Cerro de las Posas, hill of the pools.

Berros, water cress; Barro, clay; Buchon, big crew; Toro, bull; Tres Pinos, three pines; Garapata, wood-tick; Gaviota, sea gull; Garsa, heron; Palo Colorado, redwood; Tecolote, ground owl; Buena Vista, good view; manzanita, little apple; Mapache, coon; Monterey, hill of king; Del Monte, of the wood; Nacimiento, birth of Christ; Oso Flaco, thin bear; Panza, paunch; Paleta, shoulder blade; Carnaso, loin; Pilarcitos, little pillars; Piojo, louse; Poso de los Ositos, pool of little bears; Coches, hogs; Chorro, rushing water; La Cienega del Gabilan, swamp of the hawk; Cerro de los Codornices, quail hill; Corralitos, little corral; Questa, grade; Encina, black oak; encinal, wood of black oak; Fresno, ash; Estero, creek where tide comes; Grullo, crane.

Reader's Reaction

May 17, 1939.

The Pine Cone,
Carmel, California.
Dear Mr. Cockburn:

The Carmel Parent-Teachers' Association has asked me to express to you its deep appreciation of your kindness during the recent Carnival.

It was most generous of you to give so much space in your paper to us. With sincere thanks,

IRENE ERICKSON,
Secretary.

APRIL 15, 1916

There is peace and harmony once again (or is there?) between the Forest Theater and the Western Drama Society. For the first two years after its organization, the Forest Theater Society, which had put on Miss Skinner's "David" and "Twelfth Night", was alone in the field, but in 1912 a disagreement arose in the society which culminated in the formation of the Western Drama Society. Since that time both groups have been producing elaborate and costly plays annually—and neither of them has done as well artistically or financially as they might have.

A meeting has been scheduled for the purpose of forming a Sunset Parent-Teacher Association. With a handsome new building to call the attention of the community to our school, the time seems ripe to awaken a deeper interest and a greater co-operation on the part of the citizens of our village.

WHY YOU MUST NOT FAIL TO VOTE FOR MRS. HELEN LEVINSON TODAY

A vote for Peter Ferrante today is a vote wasted!

Ferrante's name will appear on the ballot, but he withdrew last week from the election for Sunset school trustee and this week repeated his original announcement of his withdrawal.

He does not want to be a candidate and does not want you to vote for him.

Be sure to mark your ballot for Mrs. Helen Levinson and be sure to go to the polling place at Sunset school, 9 a. m. to 7 p. m. today, in order to give her an overwhelming vote of confidence.

Mrs. Levinson has served with honor on the Sunset board in other years and she has the confidence of those who have fought long and hard for the interests of Sunset as a progressive and outstanding school.

The fact that both names are on the ballot threatens to place both Mrs. Levinson and Ferrante in an embarrassing position. Ferrante has said that he was surprised at those who rallied to his support when he announced his candidacy last week and, in view of the controversy which threatened, declared himself in a "misunderstood position" and immediately withdrew in the interests of harmony.

Ferrante is highly regarded in the community and especially by those who know him personally. Casting your vote for Mrs. Levinson will in no way reflect against him, but will actually assist in avoiding an embarrassing position for Ferrante, Mrs. Levinson and the school board which is favorable to Mrs. Levinson's candidacy. Ferrante, it is understood, is regarded as a likely nominee to the board July 1.

An intelligent understanding on this position demands that you vote for Mrs. Levinson today, as an expression of confidence in the Sunset school board in its recommendation of a candidate, and in turning back what amounts to an embittered attack on the school board which will have the job of building for Carmel its first high school.

In view of the seven-to-one landslide in favor of the board's decision favoring the Hatton Ranch site a few weeks ago, a similar vote of confidence is hoped for today.

Retrial Sought as Mrs. Bolin Found Guilty

Attorney Argyll Campbell and Ralph O. Marron will move for a new trial of Mrs. Kathryn Bolin, found guilty yesterday noon on a Carmel speeding charge and fined \$10 by Justice of the Peace Ray Baugh in Monterey court.

Date for hearing of motion for new trial was not set yesterday by Judge Baugh, who complimented the attorneys upon a well-prepared and well-presented case. Deputy District Attorney Kal Y. Sapiro and Carmel City Attorney William Luis Hudson prosecuted.

In finding Mrs. Bolin guilty of speeding 43 miles an hour on San Antonio street on the evening of May 2, Judge Baugh based his decision upon the law and evidence in the case, and in his remarks said he had enjoyed trying the case because of the interesting points raised, at the same time expressing future interest in the case if it is appealed, as every indication suggests, to a superior court.

Should Judge Baugh refuse a new trial, counsel for the defence will most likely appeal, having already indicated that such would be their action.

The case first came up before Judge George P. Ross in Carmel and was transferred to Judge Baugh's court on grounds of "prejudice." Since then the legal contest was waged before Judge Baugh for the past three weeks, came up for final argument yesterday morning.

CROSSING DEATHS DROP

Grade crossing fatalities dropped 23 per cent during the first ten months of last year, reports the California State Automobile Association. Deaths totalled 1159 as compared with 1519 for the same period of 1937. The Federal program of grade crossing elimination is regarded as a strong factor in the improvement.

Student Body Holds Election

(Continued from Page One)

which was turned into a polling place for the day. Three election booths were set up, and voting was carried on according to the Australian secret ballot plan. When the votes were counted we found that the results were as follows:

President, Lila Whitaker; vice-president, Sandy Buhrans; secretary-treasurer, Peggy Gargiulo; business manager, Kenneth Jones.

We wish our newly-elected student body officers the best of luck.

Program Issued for Graduation, Sunset School

The following program was issued this week by Principal Otto W. Bardarson for commencement exercises:

Tuesday, June 6, at 8 p. m.:

Processional, with orchestra.

Girls' Glee Club—"Songs My Mother Taught Me" (Dvorak); "Who Is Sylvia" (Schubert).

Class Speakers—"Our Days at Sunset", Donald Stanford; "The Transition Period", Doris Evans; "The Carmel Junior High School", Vincent Torras; "The Carmel High School", Margery Street.

Girls' Glee Club—"May Song" (Netherlands Air); "Wandering" (Schubert).

Presentation of class by Otto W. Bardarson, district superintendent.

Presentation of diplomas by Mrs. Eugene Watson, chairman, board of trustees.

Recessional, with orchestra.

Reception in the school library following the program. (Dancing following the reception is for Eighth Grade students only).

The parent committee for the Eighth Grade class has asked that parents and friends of the graduating students refrain from bringing flowers or presents.

There will be a special reserved section for members of the immediate family receiving tickets.

and look forward to a successful administration of junior high school affairs under their leadership.

—Elinor Smith, 7th Grade.

— 23 years ago —

The dry goods store conducted by Miss S. J. Guichard has moved to the northeast corner of Ocean avenue and Dolores street and will be known as "L'Accommodation."
